State Liability Tort Law And Beyond:

State Liability Carol Harlow, 2004 The lectures presented in this volume examine the fast growing compensation culture and the consequential pressure on courts to widen the range of situations in which individuals can claim damages from the State Within domestic legal systems there has been a considerable extension of tortious liability which is impinging on the State and its resources These lectures address statutory and administrative compensation and examine the influence of group actions and of globalization Pressure on domestic legal systems has been increased by transnational courts notably the Court of Human Rights and the European Court of Justice Carol Harlow argues that this trend towards judicialization is undesirable and that greater use should be made of extrajudicial remedies She contends that the issue of compensation is too important to be left to the courts

Public Liability in EU Law Pekka Aalto, 2011-11-01 Over the last two decades public law liability for breach of European Union law has been subject to remarkable developments This book examines the convergence between its two constituent systems the damages liability of the EU and that of its Member States for failing to comply with EU rules Member

State liability based as it is on the Francovich case 1991 and Brasserie du P cheur and Factortame 1996 judgments of the European Court of Justice ECJ is well established But it is yet to be closely scrutinised by reference to the detailed rules on the liability of the European Union The focus of the book is on the two key legal criteria that are common to both systems namely the grant of rights to individuals by EU law and the notion of sufficiently serious breach of such rights The analysis concentrates on developments in the case law of the ECJ and the General Court since the Bergaderm judgment 2000 which consolidated the convergence of the two liability systems that was first indicated in Brasserie du P cheur and Factortame These two criteria are set side by side to evaluate the extent in real terms of the convergence of Member State and EU institutional damages liability and to determine the extent to which one has influenced the other This book shows that although full convergence between the two liability systems is not likely each stream of case law should look to the other more actively as this important element of EU remedial law develops Convergence in EU law public liability is supported by developments in adjacent areas most notably European tort law and European administrative law This study also illustrates how convergence in the EU liability systems to date has had spill over effects into national public liability law
