Surveying Natural Populations:

Surveying Natural Populations Lee-Ann C. Hayek, Martin A. Buzas, 1997 Employing a single data set for clarity the book demonstrates the application of a wide spectrum of statistical techniques to this model A wealth of other examples from the natural world illustrates the use of each method with different kinds of organisms *Surveying Natural Populations* Lee-Ann C. Hayek, Martin A. Buzas, 2010 Reads almost like a novel in comparison to normal statistical books **Selection in Natural Populations** Jeffry B. Mitton, 2000 In this book the author explains the questions that geneticists hoped to answer by studying protein enzyme variation He focuses primarily on the data generated in the field and in the laboratory

Sampling Theory and Practice Changbao Wu, Mary E. Thompson, 2020-05-15 The three parts of this book on survey methodology combine an introduction to basic sampling theory engaging presentation of topics that reflect current research trends and informed discussion of the problems commonly encountered in survey practice These related aspects of survey methodology rarely appear together under a single connected roof making this book a unique combination of materials for teaching research and practice in survey sampling Basic knowledge of probability theory and statistical inference is assumed but no prior exposure to survey sampling is required The first part focuses on the design based approach to finite population sampling It contains a rigorous coverage of basic sampling designs related estimation theory model based prediction approach and model assisted estimation methods The second part stems from original research conducted by the authors as well as important methodological advances in the field during the past three decades Topics include calibration weighting methods regression analysis and survey weighted estimating equation EE theory longitudinal surveys and generalized estimating equations GEE analysis variance estimation and resampling techniques empirical likelihood methods for complex surveys handling missing data and non response and Bayesian inference for survey data The third part provides guidance and tools on practical aspects of large scale surveys such as training and quality control frame construction choices of survey designs strategies for reducing non response and weight calculation These procedures are illustrated through real world surveys Several specialized topics are also discussed in detail including household surveys telephone and web surveys natural resource inventory surveys adaptive and network surveys dual frame and multiple frame surveys and analysis of non probability survey samples This book is a self contained introduction to survey sampling that provides a strong theoretical base with coverage of current research trends and pragmatic guidance and tools for conducting surveys Species Conservation: A Population-Biological Approach Seitz, Lösckke, 2013-11-21 Comparability in Survey Research on Drugs National Institute on Drug Abuse.
