The Age of the Bachelor Howard P. Chudacoff, 2020-12-08 In this engaging new book Howard Chudacoff describes a special and fascinating world the urban bachelor life that took shape in the late nineteenth century when a significant population of single men migrated to American cities Rejecting the restraints and dependence of the nineteenth century family bachelors found sustenance and camaraderie in the boarding houses saloons pool halls cafes clubs and other institutions that arose in response to their increasing numbers Richly illustrated anecdotal and including a unique analysis of The National Police Gazette the most outrageous and popular men s publication of the late nineteenth and the early twentieth century this book is the first to describe a complex subculture that continues to affect the larger meanings of manhood and manliness in American society The figure of the bachelor with its emphasis on pleasure self indulgence and public entertainment was easily converted by the burgeoning consumer culture at the turn of the century into an ambiguously appealing image of masculinity Finding an easy reception in an atmosphere of insecurity about manhood that image has outdistanced the circumstances in which it began to flourish and far outlasted the bachelor culture that produced it Thus the idea of the bachelor has retained its somewhat negative but alluring connotations throughout the rest of the twentieth century Chudacoff s concluding chapter discusses the contemporary singles scene now developing as the number of single people in urban centers is again increasing By seeing bachelorhood as a stage in life for many and a permanent status for some Chudacoff recalls a lifestyle that had a profound impact on society evoking fear disdain repugnance and at the same time a sense of romance excitement and freedom The book contributes to gender history family history urban history and the study of consumer culture and will appeal to anyone curious about American history and anxious to acquire a new view of a sometimes forgotten but still influential aspect of our national past

A Pair of Wings Carole Hopson, 2024-08-20 An airline captain crafts a riveting adventurous novel inspired by the remarkable true life of pioneer aviatrix Bessie Coleman a Black woman who learned to fly at the dawn of aviation and found freedom in the air A few years after the Wright brothers first flight Bessie was working the Texas cotton fields with her family when an airplane flew over their heads It buzzed so low she thought she could catch it in her hands Bessie was

fearless She knew there was freedom in those wings The daughter of a woman born into slavery Bessie answers the call of the Great Migration She moves to Chicago where she wins the backing of two wealthy powerful Black men Robert Abbott creator and publisher of the Chicago Defender and Jesse Binga the founder of Chicago's first Black bank Abbott becomes her mentor while Binga becomes her lover Her true first love though remains flying But in 1920 no one in the United States will train a Black woman to fly So twenty eight year old Bessie learns to speak French and sets off for Europe Two years ahead of Amelia Earhart Bessie earns her pilot's license and later she learns death defying stunts from French and German dogfighting combat pilots While she finds no prejudice in the air Bessie wrestles with other challenges on the ground A plane crash nearly kills her her brothers seem to be crumbling under the weight of Jim Crow and while grappling with tough truths about Binga Bessie begins to wonder if the freedom she finds in the sky means she must otherwise fly solo With tenderness and mastery Carole Hopson imagines the breathtaking moxie Bessie Coleman harnessed in order to lift herself out of poverty and become known as Queen Bess

Drugging the Poor Merrill Singer, 2007-08-10 Singer offers a fresh set of ideas for understanding how the global socioeconomic system insures that massive quantities of psychotropic drugs reach the poorest sectors of American society Drugging the Poor provides a unified theoretical framework to assess how all drugs including tobacco heroin alcohol cocaine and diverted pharmaceuticals contribute to maintaining social inequality among the wealthier and poorer social classes in American society Singers analysis rejects conventional approaches that see tobacco or alcohol manufacturers and distributors on the one hand and drug cartels and mafias on the other as completely different entities Instead he shows how legal and illegal drug corporations share key features and follow the same economic principles He also emphasizes that mixing legal and illegal drugs to self medicate against social discrimination poverty and structural violence offers short term relief but in the long run it functions to maintain an unjust and oppressive system Drugging the Poor actively challenges the assumption that how things are is how they always have been or how they need to be
