The Science of Motivation Brian Tracy,2017-11-07 Legendary college football coach Lou Holtz once said When all is said and done more is said than done These few yet profound words explain one of the biggest predicaments that individuals face today We want to be successful happy and influential Yet very few of us follow up what we say with specific actions that move us directly toward those goals The idea of being successful is an attractive dream that fills us with positive emotions Whereas the actions required to be successful are often difficult The desire to be genuinely happy is a goal toward which nearly every individual aspires But the actions required to achieve deep and sustained happiness require us to often delay temporary gratification and quick fixes to problems Saying that we want to achieve influence either as a leader of others in the workplace an influential member of the community or as an admired parent and spouse is far easier than the gut wrenching decisions enormous amounts of personal time and direct truth telling that are required In this cutting edge program from personal development expert and motivation master Brian Tracy you ll learn that there truly is a Science of Motivation If you apply Brian s teachings and implement them in your life your dreams will become your destiny as you produce the outcomes that you desire
