Giblin, 1985-11-01 Taking a brass tacks approach to communication How to Have Confidence and Power in Dealing With People explains how to interact with others as they really are not as you would like them to be The goal is to get what you want from them successfully be it cooperation goodwill love or security Les Giblin a recognized expert in the field of human relations has devised a method for dealing with people that can be used when relating with anyone parents teachers bosses employees friends acquaintances even strangers Giblin shows step by step how to get what you want at any time and in ways that leave you feeling good about yourself Moreover the people who have given you what you want wind up feeling good about themselves too The result Nobody gets shortchanged It's a win win situation Each chapter includes a handy summary so there's absolutely no chance of missing the book's key points You can also use these recaps to refresh your memory after you've finished the book Instead of feeling miserable about your interpersonal skills read this best selling guide and learn to succeed with people in every area of your life [The Art of Dealing With People](#) Les Giblin, 2001-01-01 What is the one quality that all successful people have in common They have mastered the art of dealing with people Let this book show you how to Achieve your goals Handle the human ego Become a master conversationalist Make others feel good about themselves And much more Skill with people is the one essential ingredient for success and happiness at home and in business The Art of Dealing With People gives you the skills to take your people skills to a level that you never thought possible Skill in human relations is similar to skill in any other field in that success depends on understanding and mastering certain basic general principles You must not only know what to do but why you're doing it As far as basic principles are concerned people are all the same Yet each individual person you meet is different If you attempted to learn some gimmick to deal successfully with each separate individual you met you would be faced with a hopeless task Influencing people is an art not a gimmick When you apply gimmicks in a superficial mechanical manner you go through the same motions as the person who has a way but it doesn't work for you The purpose of this book is to give you knowledge based upon an understanding of human nature why people act the way they do The methods presented in this book have been tested on thousands of people

who have attended my human relations seminars They are not just my pet ideas of how you should deal with people but ideas that have stood the test of how you must deal with people That is if you want to get along with them and get what you want at the same time Yes we all want success and happiness And the day is long past if it ever existed when you could achieve these goals by forcing people to give you what you want And begging is no better for no one has respect for or any desire to help the person who constantly kowtows and literally goes around with his hand out begging other people to like him The one successful way to get the things you want from life is to acquire skill in dealing with people Download now and you will learn how

Social Marketing for Public Emergency Preparedness Nancy Meyer-Emerick, 2015-08-11 Less than half of the public in the U S have taken the three steps to prepare for emergencies that are recommended by FEMA and the Red Cross having a 3 day emergency kit a family communication plan and knowing where to get information during an emergency Although emergency managers attempt to train the public often they are only able to distribute brochures and make public notifications For a variety of reasons the public frequently ignores this guidance leaving people more vulnerable during emergencies This book applies the process of social marketing which has been used widely in public health and other disciplines to the lack of public preparedness Written for emergency managers in government and non profit agencies students and volunteers the book provides enough background and resources to enable the user to carry out an effective emergency preparedness campaign in their community and maintain it over time Unlike preparing one message for everyone

social marketing involves working with smaller communities to identify what and how people want to learn training them and then maintaining that relationship to insure their preparedness Because most emergency management agencies lack resources to take on such an initiative the book provides readers with low cost methods to begin a social marketing program
