Freedoms Given, Freedoms Won Kim D. Butler, 1998 *Freedoms Given Freedoms Won* explores the ways Afro Brazilians in two major cities adapted to the new conditions of life after the abolition of slavery and how they confronted limitations placed on their new freedom The book sets forth new ways of understanding why the abolition of slavery did not yield equitable fruits of citizenship not only in Brazil but throughout the Americas and the Caribbean Afro Brazilians in Sao Paulo and Salvador lived out their new freedom in ways that raise issues common to the entire Afro Atlantic diaspora In Sao Paulo they initiated a vocal struggle for inclusion in the creation of the nation s first black civil rights organization and political party and they appropriated a discriminatory identity that isolated blacks In contrast African identity prevailed over black identity in Salvador where social protest was oriented toward protecting the right of cultural pluralism Of all the eras and issues studied in Afro Brazilian history post abolition social and political action has been the most neglected Butler provides many details of this period for the first time in English and supplements published

sources with original oral histories Afro Brazilian newspapers and new state archival documents currently being catalogued in Bahia Freedoms Given Freedoms Won sets the Afro Brazilian experience in a national context as well as situating it within the Afro Atlantic diaspora through a series of explicit parallels particularly with Cuba and Jamaica *The Life and Death of the Radical Historical Jesus* David Burns,2013-01-03 In this cultural and intellectual history David Burns contends that the influence of biblical criticism in America was more widespread than has been thought Burns proves this point by uncovering the hidden history of the radical historical Jesus a construct created and sustained by freethinkers feminists socialists and anarchists during the Gilded Age and Progressive Era The result of this exploration is a new narrative revealing that Cyrenus Ward Caroline Bartlett George Herron Bouck White and other radical religionists had an impact on the history of religion in America rivaling that of recognized religious intellectuals such as Shailer Mathews Charles Briggs Francis Peabody and Walter Rauschenbusch The methods utilized by radical religionists were different from those employed by elite liberal divines however and part of a larger struggle over the relationship between religion and civilization There were numerous reasons for this conflict but Burns argues that the primary cause was that key radical religionists used Ernest Renan s *The Life of Jesus* to create an imaginative brand of biblical criticism that struck a balance between the demands of reason and the doctrines of religion And this measured approach allowed Robert Ingersoll Elizabeth Cady Stanton Eugene Debs and other secular minded thinkers who sought to purge Christianity of its supernatural dimensions to still find something wonderful in the religious imagination and make common cause with an ancient peasant from Galilee This provocative blend of reason and religion produced a vibrant countercultural movement that spanned communities classes and creeds and makes *The Life and Death of the Radical Historical Jesus* a book that deserves a wide readership in an era when public intellectuals and politicians on both the left and right draw rigid lines between the secular and the sacred **African American**

No Longer Invisible: Afro-Latin Americans Today, 1995-06-01 Latin Americans of African ancestry have historically been an oppressed and neglected minority Almost all descended from slaves and numbering perhaps 125 million people they have generally been denied access to power influence or material progress While Afro Latin Americans have frequently challenged their oppression with some success and have seen many aspects of their culture absorbed into mainstream Latin American life persistent myths of colour blind racial democracy and blanqueamiento whitening mask the insidious and often brutal reality of the discrimination they face Written by scholars from many countries No Longer Invisible charts the Afro Latin American experience from

slavery to contemporary times showing the contrasts as well as the similarities across the region. Intended both for specialists and for interested general readers, the book makes an important contribution to the study of racism and anti-racism in Latin America today. The distinct but extraordinarily diverse ethnic and cultural identities of Afro-Latin Americans have received little official recognition. But today a growing movement is voicing pride in the Afro-Latin American heritage, asserting common identities and working to defend and advance collective rights. This fascinating book provides a major human rights-focused survey that aims to reflect and be part of that process of rediscovery and renewal. Each chapter considers a particular country or subregion. The authors discuss the historical background, the legacy of resistance to oppression, how members of the minorities see themselves, their culture, the contemporary experience of discrimination, contrasting ethnic identities assumed by women and men, collective aspirations, the struggle for equality and future prospects. The book also includes a wide-ranging general introduction, a final chapter that poses fundamental questions about comparative race relations in the Americas and beyond, a regional population map, and black and white photographs. Please note that the terminology in the fields of minority rights and indigenous peoples' rights has changed over time. MRG strives to reflect these changes as well as respect the right to self-identification on the part of minorities and indigenous peoples. At the same time, after over 50 years of work, we know that our archive is of considerable interest to activists and researchers. Therefore, we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues.

Africans to Spanish America Sherwin K. Bryant, Rachel Sarah O'Toole, Ben Vinson, 2012-03-30

Africans to Spanish America expands the diaspora framework to include Mexico, Peru, Ecuador, and Cuba, exploring the connections and disjunctures between colonial Latin America and the African diaspora in the Spanish empires. Analysis of the regions of Mexico and the Andes opens up new questions of community formation that incorporated Spanish legal strategies in secular and ecclesiastical institutions, as well as articulations of multiple African identities. The volume is arranged around three sub-themes: identity construction in the Americas, the struggle by enslaved and free people to present themselves as civilized Christians and resistant to slavery, and issues of cultural exclusion and inclusion.

Contributors are Joan Cameron Bristol, Nancy E. van Deusen, Leo Garofalo, Herbert S. Klein, Charles Beatty Medina, Karen Y. Morrison, Rachel Sarah O'Toole, Frank Trey Proctor, and Michele B. Reid Vazquez.

Afro-Politics and Civil Society in Salvador da Bahia, Brazil Kwame Dixon, 2022-08-02

Brazil's Black population, one of the oldest and largest in the Americas, mobilized a vibrant anti-racism movement from grassroots origins when the country transitioned from dictatorship to democracy in the 1980s. Campaigning for political equality after centuries of deeply engrained racial hierarchies, African-descended groups have been working to unlock democratic spaces that were previously closed to them. Using the city of Salvador as a case study, Kwame Dixon tracks the emergence of Black civil society groups and their political projects, claiming new citizenship rights, testing new anti-discrimination and affirmative action measures, reclaiming rural and urban land, and increasing political
