Slum Upgrading And Participation Lessons From Latin America:

Slum Upgrading and Participation Ivo IMPARATO, Jeff Ruster, 2003-01-01 The UN currently estimates that there are about 837 million urban slum dwellers worldwide and this figure is likely to rise to 1.5 billion by 2020 if current trends are not reversed This book offers five geographically and institutionally diverse case studies from Latin America where some of the longest running and most successful programmes in this field have been conducted These programmes involving a wide variety of funding arrangements and agencies demonstrate the positive impact that community participation and people oriented service solutions can have on slum upgrading efforts in low income urban areas

Learning from the Slums for the Development of Emerging Cities Jean-Claude Bolay, Jérôme Chenal, Yves Pedrazzini, 2016-07-29 This book deals with slums as a specific question and a central focus in urban planning It radically reverses the official version of the history of world cities as narrated during decades slums are not at the margin of the contemporary process of urbanization they are an integral part of it Taking slums as its central focus and regarding them as symptomatic of the ongoing transformations of the city the book moves to the very heart of the problem in urban planning The book presents 16 case studies that form the basis for a theory of the slum and a concrete development manual for the slum The interdisciplinary approach to analysing slums presented in this volume enables researchers to look at social and economic dimensions as well as at the constructive and spatial aspects of slums Both at the scientific and the pedagogical level it allows one to recognize the efforts of the slum residents key players in the past and present development of their neighborhoods and to challenge public and private stakeholders on priorities decided in urban planning and their mismatches when compared to the findings of experts and the demands of users Whether one is a planner an architect a developer or simply an inhabitant of an emerging city the presence of slums in one's environment at the same time central and nonetheless incongruous makes a person ask questions Today it is out of the question to be satisfied with the assumption of the marginality of slums or of the incongruous nature of their existence Slums are now fully part of the urban landscape contributing to the identity and the urbanism of cities and their stakeholders

The Urban Poor in Latin America Marianne Fay, 2005 About half of the region's poor live in cities and policy makers across Latin America are increasingly interested in policy advice on how to design programmes and policies to tackle poverty This publication argues that the causes of poverty the nature of deprivation and the policy levers to fight poverty are to a large extent site specific It therefore focuses on strategies to assist the urban poor in making the most of the opportunities offered by cities such as larger labour markets and better services while helping them cope with the negative aspects such as higher housing costs pollution risk of crime and less social capital

The Oxford Handbook of Urban Planning Randall Crane, Rachel Weber, 2015 Why plan How and what do we plan Who plans for whom These three questions are then applied across three major topics in planning States Markets and the Provision of Social Goods The Methods and Substance of Planning and Agency Implementation and Decision Making

Imperialism, Neoliberalism And Social Struggles

in Latin America Richard Alan Dello Buono, José Bell Lara, 2007 This collection focuses on the social consequences of neoliberal crises in Latin America It includes a critical yet sympathetic analysis of ruling leftist governments in the region and discusses the larger constraints facing organized attempts to politically transform the Americas **Analytical Perspective of Pro-poor Slum Upgrading Frameworks**, 2006 **Beyond Neighbourhood Planning** Andy Yuille, 2023-06-30 This innovative analysis brings theory research and practice together and gives insights into how and why citizen voices either become effective in or get excluded from neighbourhood planning outcomes **Spatial Mobility of Migrant Workers in Beijing, China** Ran Liu, 2015-03-30 The great migration of farmers leaving rural China to work and live in big cities as floaters has been an on going debate in China for the past three decades This book probes into the spatial mobility of migrant workers in Beijing and questions the city rights issues beneath the city making movement in contemporary China In revealing and explaining the socio spatial injustice this volume re theorizes the right to the city in the Chinese context since Deng Xiaoping s reforms The policy review census analysis and housing survey are conducted to examine the fate of migrant workers who being the most marginalized group have to move persistently as the city expands and modernizes itself The study also compares the migrant workers with local Pekinese dislocated by inner city renewals and city expansion activities Rapid urban growth and land expropriation of peripheral farmlands have also created a by product of urbanization an informal property development by local farmers in response to rising low cost rental housing demand This is a highly comparable phenomenon with cities in other newly industrialized countries such as S o Paulo Readers will be provided with a good basis in understanding the interplay as well as conflicts between migrant workers housing rights and China s globalizing and branding pursuits of its capital city Audience This book will be of great interest to researchers and policy makers in housing planning governance towards urban informalities rights to the city migrant control and management and housing related conflict resolutions in China today **Energy Efficiency in the Urban Environment** Heba Allah Essam E. Khalil, Essam E. Khalil, 2015-02-12 Energy Efficiency in the Urban Environment is a study of energy crisis urbanisation and climate change as well as a discussion of how to combat these global challenges With a special focus on Egypt this book addresses the macroscale of urbanism from the perspective of city dwellers quality of life and explores the microscale of buildings and **Local Politics, Global Impacts** Olivier Charnoz, Virginie Diaz Pedregal, 2016-05-06 Serving as a touchstone for a much needed research program on social scales this volume challenges disciplinary boundaries and brings into focus a paradoxical state of affairs in contemporary thought the domain of local global interactions has not yet been identified as an object of analysis in its own right despite engaging a large multi disciplinary research community with strong potential for cross fertilization Bringing together internationally renowned as well as emerging scholars this book presents concrete case studies framed by theoretical concern with the issue of scale It demonstrates that a diverse array of theoretical methodological and empirical perspectives can productively converge on a common set of problems related to

social temporal and spatial scales and contemporary globalization Local Politics Global Impacts will stimulate empirical and theoretical research that focuses on understanding how political concepts practices and instruments translate across scales and contribute to the emergence of a self aware community of scholars and practitioners focusing explicitly on modelling the dynamics of local regional global interactions **Development Poverty and Politics** Richard Martin,Ashna

Mathema,2009-12-04 Top down bottom up what works This book explores development from the perspective of the poor Who are they What lives do they live What matters to them And most importantly what can they do about it Martin and Mathema debate how people can be given legitimate control of their own environment and how governments can work with them How do communities and conditions drive behavior What interventions are appropriate and how can we approach development imaginatively This is not about usurping governance but revisiting structures that the developed world has come to accept and placing the power of decision in the hands of the people it affects Nor it is about money it s about people and about how we can make our world work for everyone **Guidance Note** Asian Development Bank,2014-10-01 Urbanization will

become one of the defining trends of Asia s transformation in the coming decades Investments in urban areas have a strong potential to contribute to inclusive growth reduce urban poverty and strengthen social resilience The Guidance Note on Poverty and Social Dimensions in Urban Projects aims to assist Asian Development Bank ADB staff including practitioners and specialists working on their behalf to effectively address the poverty and social dimensions of ADB s urban operations It provides practical guidance in strengthening the link between urban investments and poverty reduction by making better use of poverty and social analysis as a resource for successful projects The guide complements the Handbook on Poverty and Social Analysis 2012 which provides general guidance on incorporating poverty and social dimensions in ADB operations

Handbook of Research on Managing the Urban-Rural Divide Through an Inclusive Framework Popoola, Ayobami Abayomi, Magidimisha-Chipungu, Hangwelani Hope, Chipungu, Lovemore, 2023-02-10 In recent years the growing disparities between rural and urban areas in

developing countries have been a cause of major concern. The rural-urban gap remains the single most well-documented development and welfare disparity in the developing world. This gap can be seen in the low economic activities, higher poverty levels, and lower quality infrastructure and services in rural areas as opposed to urban areas. While the magnitude of this rural-urban divide is well-documented, very little has been documented about its impact on inclusive and sustainable urban development. The Handbook of Research on Managing the Urban-Rural Divide Through an Inclusive Framework aims to capture the spatial and socio-economic divide between rural and urban areas and provides a road map to revamping the discussion that surrounds the urban-rural sphere. Covering key topics such as development, food security, and rural regions, this premier reference source is ideal for policymakers, government officials, industry professionals, researchers, academicians, practitioners, scholars, instructors, and students.

Citizens' Participation in Urban Planning and Development in Iran
Hans-Liudger Dienel, M. Reza Shirazi, Sabine Schröder, Jenny Schmithals, 2017-05-12

During recent years, the topic of participation has increasingly been gaining importance in Iran in the scientific field, in practice, and in rhetoric. However, in current scientific literature and especially in English literature, there is little knowledge on the conditions, legal background, perceptions, experiences, and processes of citizens' participation in Iran. This book aims to shed light on the paradoxical question of participation in Iran: it is old and new, dysfunctional and functioning, disappointing and promising. This slippery status of participation convinces scholars to suggest contradictory interpretations and understandings about the existence, functionality, and potentiality of this concept. The book therefore shows the different perspectives, interpretations, historical developments, and case studies of participation in Iran, thus giving the reader a kaleidoscope view on the question of participation in Iran.
