*Critical Perspectives on Entrepreneurship* Caroline Essers,Pascal Dey,Deirdre Tedmanson,Karen Verduyn,2017-02-17 Entrepreneurship is largely considered to be a positive force driving venture creation and economic growth Critical Perspectives on Entrepreneurship questions the accepted norms and dominant assumptions of scholarship on the matter and reveals how they can actually obscure important questions of identity ideology and inequality The book's distinguished authors and editors explore how entrepreneurship study can privilege certain forms of economic action whilst labelling other more collective forms of organization and exchange as problematic Demystifying the archetypal vision of the white male entrepreneur this book gives voice to other entrepreneurial subjectivities and engages with the tensions paradoxes and ambiguities at the heart of the topic This challenging collection seeks to further the momentum for alternate analyses of the field and to promote the growing voice of critical entrepreneurship studies It is a useful tool for

researchers advanced students and policy makers      **A Research Agenda for Entrepreneurship Policy** David Smallbone, Friederike Welter, 2020-07-31 This book makes the case for a change in the research agenda on entrepreneurship policy An exemplary group of authors addresses the agenda for entrepreneurship policy researchers policy makers and practitioners in the field A key theme is the importance of context which is particularly marked where policy transfer is attempted      Critical Perspectives on Innovation Management Patryk Dziurski, 2021-11-28 Most firms perceive innovation as the best way to grow However how it can best be managed is still unclear While the number of publications on innovation has skyrocketed over the past two decades it is still increasingly difficult to gain an overview of its most critical aspects Much has been written about the possible benefits of innovation but there is still a lack of understanding of its downsides at the innovative firm level This can lead to detrimental effects such as a lower commitment to innovation a lack of effective innovation strategy inappropriate organizational design that does not enhance innovation and either a too cautious or too risky approach to innovation Thus the book aims to explore the concept of innovation management as well as to identify the bright and dark sides of innovation in innovative firms A better understanding of the positive and negative effects of product and process innovation expands the knowledge base on innovation management and allows managers to manage innovation in a more efficient and effective manner This book will be valuable to researchers academics managers and advanced students in the fields of management studies strategy and organizational studies      Entrepreneurship As Practice Neil Aaron Thompson, Karen Verduijn, William B. Gartner, 2021-08-19 This innovative book takes seriously the ordinary activities of entrepreneurship and maps out new pathways for scholars to understand the nature properties and implications of studying practices for entrepreneurship studies Entrepreneurship is neither an art nor a science but a bundle of practices as Peter Drucker once observed Curiously however academic research on entrepreneurship mostly abstracts away from practical activity In contrast Entrepreneurship As Practice takes ordinary activities of entrepreneurship seriously by mapping out new pathways for scholars to consider the everyday practices through which entrepreneurship occurs Each chapter draws on contemporary theories of practice to illuminate the nature properties and implications of studying the practices of entrepreneurship The chapters in this book were originally published as a special issue of the journal Entrepreneurship Regional Development      **Critical management studies in South Africa**, 2021-11-30 This book shows how Critical Management Studies CMS scholarship is starting to develop a character of its own in South Africa It attests to CMS slowly gaining momentum and acquiring an identity of its own amongst South African scholars However management studies in South Africa is dominated by capitalist ideology and positivist methodology Although Interpretive scholarship has gained some momentum it still falls within the parameters of mainstream capitalist thinking Scholarship outside the domain of capitalist thinking such as critical scholarship remains sorely underexplored Being entrenched in the positivist tradition is arguably a major Achilles Heel for the progression of management as a field of inquiry CMS presents a vehicle for alternative

epistemologies to be heard in the management discourse With its focus on power imbalances struggles for emancipation from oppression and distrust of capitalism CMS provides the peripheral point of view with a voice CMS presents a space where scholars can engage with South African realities surrounding political cultural social and historical contexts and issues in management This book is promoting CMS to the scholarly community to show that there are exciting possibilities being offered by a different approach to management scholarship This book also forms part of a larger project of growing CMS in South Africa and is a collection of original works by academics actively working in CMS following various methodological approaches which can be categorised into two broad methodological categories namely conceptual work and empirical work following an Interpretive approach
