*Smells Like Dog* Suzanne Selfors,2024-09-24 Meet Homer Pudding an ordinary farm boy who s got big dreams to follow in the footsteps of his famous treasure hunting uncle But when Uncle Drake mysteriously disappears Homer inherits two things a lazy droopy dog with no sense of smell and a mystery Why would his uncle call this clumsy dog his most treasured possession And why did he put a gold coin on the dog s collar And who will continue Uncle Drake s quest to find the most coveted pirate treasure in the world Join Homer his sister Gwendolyn and Dog on an adventure that will test their wits and courage as they leave their peaceful farm and head into a world where ruthless treasure hunters hide around every corner Where they discover that Dog has a hidden talent and that treasure might be closer than they ever imagined      *The Ekistics of Animal and Human Conflict* Rishi Dev,2016-09-01 Urban wildlife management is a town planning subject It is logical and important to relate the animal and human conflict seen all over the world as a phenomenon which is applicable to all types of human settlements despite the diversities and complexities of cultures societal structures laws value systems religions and so on A universal principle or theory governs and applies to all cities which define these conditions and phenomena creating the conflict or coexistence This book investigates the niches of one of the key urban animals from a syntactic semantic and pragmatic perspective and explores how these niches are naturally synonymous to similar patterns structures and compositions within human settlements It explores and defines the demographic patterns thresholds and phenomenon which leads to formation of the different levels and extremes of interaction between the species This forms a paradigm which classifies this conflict within the various disciplines and frameworks of urban ecology The focus is primarily on urban dogs it

being a keystone species but is later related with other urban animals as well The premise for this approach is that history has shown how certain species have persuasively coexisted with humans for so many millennia yet a conflict happens between animals and humans and within humans over animals It is thus logical to believe that the forces which create this conflict cannot solely be natural to the species in question and have to come from outside from the settlement patterns of both species and the net resultant force and dynamics The book looks at these dichotomies in four distinct but interrelated ways It delves deep inside four niches which form the dynamics of any settlement spatial cultural ecological and economic and explores all scales at which the succession and evolution of animals take place in highly urbanized settlements **Frogs**

**Old Spouse's Tales About Animals** James F.

Gaines, 2013-09-24. There are many myths about animals that have been repeated so many times that most folks believe they are true. These myths are often called Old Wives Tales, but I firmly believe that many of the beliefs were created by males, so I prefer to be politically correct and call them OLD SPOUSES TALES. The essays in this book are meant to dispel the Old Spouses Tales about animals and animal-related myths that have been propagated for so long that they are accepted as true. Some of the truths brought out in this book include the best way to de-skunk a dog, not tomato juice. The best way to keep a
