Smoking Cigarettes The Unfiltered Truth:

Smoking Cigarettes Janet Benner, 2003 *Golden Holocaust* Robert N. Proctor, 2012-02-28 The cigarette is the deadliest artifact in the history of human civilization It is also one of the most beguiling thanks to more than a century of manipulation at the hands of tobacco industry chemists In *Golden Holocaust* Robert N Proctor draws on reams of formerly secret industry documents to explore how the cigarette came to be the most widely used drug on the planet with six trillion sticks sold per year He paints a harrowing picture of tobacco manufacturers conspiring to block the recognition of tobacco cancer hazards even as they ensnare legions of scientists and politicians in a web of denial Proctor tells heretofore untold stories of fraud and subterfuge and he makes the strongest case to date for a simple yet ambitious remedy a ban on the manufacture and sale of cigarettes

Drinking Smoke Mac Marshall,2013-08-31 Tobacco kills 5 million people every year and that number is expected to double by the year 2020 Despite its enormous toll on human health tobacco has been largely neglected by anthropologists Drinking Smoke combines an exhaustive search of historical materials on the introduction and spread of tobacco in the Pacific with extensive anthropological accounts of the ways Islanders have incorporated this substance into their lives The author uses a relatively new concept called a syndemic the synergistic interaction of two or more afflictions contributing to a greater burden of disease in a population to focus at once on the health of a community political and economic structures and the wider physical and social environment and ultimately provide an in depth analysis of smoking s negative health impact in Oceania In Drinking Smoke the idea of a syndemic is applied to the current health crisis in the Pacific where the number of deaths from coronary heart disease cancer diabetes and chronic obstructive pulmonary disease continues to rise and the case is made that smoking tobacco in the form of industrially manufactured cigarettes is the keystone of the contemporary syndemic in Oceania The author shows how tobacco consumption particularly cigarette smoking after World War II has become the central interstitial element of a syndemic that produces most of the morbidity and mortality Pacific Islanders suffer This syndemic is made up of a bundle of diseases and conditions a set of historical circumstances and events and social and health inequities most easily summed up as poverty He calls this the tobacco syndemic and argues that smoking is the crucial behavior the glue holding all of these diseases and conditions together Drinking Smoke is the first book length examination of the damaging tobacco syndemic in a specific world region It is a must read for scholars and students of anthropology Pacific studies history and economic globalization as well as for public health practitioners and those working in allied health fields More broadly the book will appeal to anyone concerned with disease interaction the social context of disease production and the full health consequences of the global promotional efforts of Big Tobacco

Linguistic Meaning Meets Linguistic Form Patrick Duffley,2020-10-13 This book steers a middle course between two opposing conceptions that currently dominate the field of semantics the logical and cognitive approaches Patrick Duffley brings to light the inadequacies of both of these frameworks arguing that linguistic semantics must be based on the linguistic sign itself and on the meaning that it conveys across the full range of its uses The book offers 12 case studies that demonstrate the explanatory power of a sign based semantics dealing with topics such as complementation with aspectual and causative verbs control and raising wh words full verb inversion and existential there constructions It calls for a radical revision of the semantics pragmatics interface proposing that the dividing line be drawn

between content that is linguistically encoded and content that is not encoded but still communicated While traditional linguistic analysis often places meaning at the level of the sentence or construction this volume argues that meaning belongs at the lower level of linguistic items where the linguistic sign is stored in a stable permanent and direct relation with its meaning outside of any particular context Building linguistic analysis from the ground up in this way provides it with a more solid foundation and increases its explanatory power

Global Tobacco Control P. Cairney, D. Studlar, H. Mamudu, 2011-12-02. The first major book by political scientists explaining global tobacco control policy. It identifies a history of minimal tobacco control, then charts the extent to which governments have regulated tobacco in the modern era. The Cult of the Constitution Mary Anne Franks, 2023-05-25. A powerful challenge to the prevailing constitutional orthodoxy of the right and the left. A deeply troubling and absolutely vital book. Mark Joseph Stern, Slate. In this provocative book, Mary Anne Franks examines the thin line between constitutional fidelity and constitutional fundamentalism. The Cult of the Constitution reveals how deep fundamentalist strains in both conservative and liberal American thought keep the Constitution in the service of white male supremacy. Franks demonstrates how constitutional fundamentalists read the Constitution selectively and self-servingly, thus undermining the integrity of the document as a whole. She goes on to argue that economic and civil libertarianism have merged to produce a deregulatory, free-market approach to constitutional rights that achieves fullest expression in the idealization of the Internet. The fetishization of the first and second amendments has blurred the boundaries between conduct and speech and between veneration and violence. But the Constitution itself contains the antidote to fundamentalism. The Cult of the Constitution lays bare the dark antidemocratic consequences of constitutional fundamentalism and urges readers to take the Constitution seriously, not selectively.

Shocking True Story Henry E. Scott, 2010-01-19. Humphrey Bogart said of Confidential: "Everybody reads it, but they say the cook brought it into the house." Tom Wolfe called it the most scandalous scandal magazine in the history of the world. Time defined it as a "cheesecake of innuendo, detraction, and plain smut." Dig up one sensational fact, embroider it for 1,500 to 2,000 words. If the subject thinks of suing, he may quickly realize that the fact is true, even if the embroidery is not. Here is the never-before-told tale of Confidential magazine, America's first tabloid, which forever changed our notion of privacy, our image of ourselves, and the practice of journalism in America. The magazine came out every two months, was printed on pulp paper, and cost a quarter. Its pages were filled with racy stories, sex scandals, and political exposés. It offered advice about the dangers of cigarettes and advocated various medical remedies. Its circulation at the height of its popularity was three million. It was first published in

1952 and took the country by storm Readers loved its lurid red and yellow covers its sensational stories filled with innuendo and titillating details its articles that went far beyond most movie magazines like Photoplay and Modern Screen and told the real stories such trade publications as Variety and the Hollywood Reporter couldn't since they and the movie magazines were financially dependent on or controlled by the Hollywood studios In Confidential's pages homespun America was revealed as it really was our most sacrosanct movie stars and heroes were exposed as wife beaters Bing Crosby homosexuals Rock Hudson and Liberace neglectful mothers Rita Hayworth sex obsessives June Allyson the cutie with the page boy and Peter Pan collar mistresses of the rich and dangerous Kim Novak lover of Ramfis Trujillo playboy son of the Dominican Republic dictator Confidential's alliterative headlines told of tawny temptresses black women passing for white pinko partisans liberals lispings lads homosexuals and promised its readers what the newspapers wouldn't reveal The Real Reason for Marilyn Monroe's Divorce How James Dean Knew He Had a Date with Death The magazine's style success and methods ultimately gave birth to the National Enquirer Star People E Access Hollywood and TMZ We see the two men at the magazine's center its founder and owner Robert Harrison a Lithuanian Jew from New York's Lower East Side who wrote for The New York Graphic and published a string of girlie magazines including Titter Wink and Flirt Bogart called the magazine's founder and owner the King of Leer and Confidential's most important editor Howard Rushmore small town boy from a Wyoming homestead passionate ideologue former member of the Communist Party who wrote for the Daily Worker renounced his party affiliation and became a virulent Red hunter close pal of FBI director J Edgar Hoover and expert witness before the House Committee on Un American Activities naming the names of actors and writers Rushmore claimed had been Communists and fellow travelers Henry Scott writes the story of two men who out of their radically different pasts and conflicting obsessions combined to make the magazine the perfect confluence of explosive ingredients that reflected the America of its time as the country struggled to reconcile Hollywood's blissful fantasy of American life with the daunting nightmare of the nuclear age
