Forgotten but Not Gone James Hoyle Maples,2018-08-16 All of us are shaped in many ways by unseen markers in our DNA Unknown ancestral traits contribute to determination of such things as eye and hair color height and even a certain propensity or susceptibility to certain diseases To some extent religious bodies are similarly the product of their beliefs and doctrines at times and in certain ways to beliefs and doctrines buried in the inherited make up of that body or denomination Landmarkism is such a genetic like marker in the Southern Baptist Convention yet is largely unknown and its influence is barely recognized today as a contributing factor in much of Baptist practice and belief This book seeks to trace the origin and transmission of landmark beliefs from the time of its greatest influence to the present day when it is largely unknown but certainly present in beliefs and practices that have developed and become part of the Southern Baptist body in many instances **The Tip of the Sword** H. Eddie Fields,2025-06-18 The religious and faithful aspect of our Christian forefathers fight for freedom is a fascinating struggle especially when studied from the proper perspective The facts demonstrate God s hand and influence upon the colonies and our nation s founders It is a history that should be diligently studied and understood How can we as a nation ever determine where we are going if we do not understand our past How do we grasp and hold onto our nation s fundamental beliefs values and principles if we do not understand what they are or how they came to be Do not our beliefs values and principles make us this great nation that has been blessed by Almighty God All Americans should know their forefathers pursued liberty and fought for reasons far beyond economic freedom and political power American secular historians who simply list a desire for religious freedom as one of many causes of the revolution fail us at

every level of understanding the persecution that colonists endured Consider the majesty and faith of the words of the founding fathers in the profound commitment of the signatories at the end of the Declaration of Independence And for the support of this Declaration with a firm reliance on the protection of Divine Providence we mutually pledge to each other our lives our fortunes and our sacred honor There is no question upon whom they relied and no doubt about their faith or commitment to one another The early American statesman Daniel Webster clearly and concisely stated his beliefs when he said History is God s providence in human affairs Webster could never have conceived that anyone would write a history excluding God from the story If it is truthful history must acknowledge God s role in it That is the driving theme in this history of the pioneers patriots and preachers of Sinking Creek Baptist Church and the Watauga Settlement It is my hope that every reader will recognize and embrace the influence of God in the lives and circumstances of our founding fathers

Henderson Smokey Mt. Mystery F. Robert Henderson, 2011-10-27 F Robert Henderson has had an improbable life He was born in Texas in 1933 His parents were both born in Kansas At the age of eight his father and mother split up He grew up under his mother s care He attended college and received a Master s Degree in Botany and Zoology from Fort Hays Kansas State University He attended the University of Kansas where in 1960 a book he wrote was published by the Kansas State Biological Survey entitled Beaver in Kansas From 1961 1968 he worked as a Field Biologist for the state wildlife agency in South Dakota During that time he wrote several articles in scientific journals the most important being the results of the first study of Black footed Ferrets in the wild this animal is one of the rarest mammals in North America In a research study he trapped and banded more than 10 thousand sharp tailed grouse More grouse that has ever been studied before And during the study found a new method of determining the sex of these grouse From June of 1968 until 1996 he was promoted from Assistant Professor to Professor at Kansas State University where he received many awards for his work as Extension Specialist in helping people cope with conflicts involving wild animals He became recognized as a national expert in preventing coyote damage to livestock Many agencies and groups have honored him for his work Among these awards include Meritorious Service USDA Award for Outstanding Extension Work USDA and Kansas State University Awards for Extraordinary Leadership in Kansas the Great Plains and

nationally for the development of educational programs and the Great Plains Agriculture Council's Outstanding Service Award in 1993 F Robert Henderson did not accomplish these things without a lot of help and understanding and encouragement F Robert is grateful for the exceptional support of Karen his wife and children Tammy and Todd as well as numerous farmers ranchers hunters colleagues and research associates As a diversion from the stress of his work in 1978 F Robert Henderson began to study his roots especially on the Henderson side of his family At that time his late father Frank Paul Henderson did not know who his second great grandfather was or even much about family history from that time back Together F Robert Henderson and his father worked together to gather facts about their ancestors This book is a result of that study *Echoes from the Valley* Crampton Harris Helms, 2013-08-26 What began as a list of names a box of documents a number of family Bibles and idle curiosity gradually evolved into a book about the settlement of Virginia and the western conquest of the great Valley of the Shenandoah the birth of the New River settlements and the emergence of the Watauga and Holston pioneers on the western slopes of the Appalachian Mountains Placing the generations into a format of historic events began to bring these fugitives from the European wars and catastrophes into focus as real people Since this story concerns the early foundation of this nation the author did not choose to go back beyond the immigration from Europe In a few cases however where the material was available and explanatory it was incorporated into these pages This does not mean that the more remote history of others was not available It just did not contribute to the integrity of this book The book is not a genealogy although it uses that structure to build the generations And it is not simply a history It is a perspective of history demonstrated through the genealogy and migrations of one family The whole is dependent upon each life among the hundreds of those who made this family possible Make no mistake about it The loss of a single one just one and the people that followed would never have been born The relations are carefully delineated Children are named where it is possible To this extent it is hoped other lineages may find the book useful The appendix contains copies from books and papers that might be difficult or impossible to obtain It is important to realize that as the reader goes backward in time the numbers of people become fewer This means that the chances of interrelations increase as the two hundredth year marker of the past is approached All of us share a kinship in the origin and the destiny of the United States of America **Among Our Books** Carnegie Library of Pittsburgh, 1921
