How Can Education Better Support the Mental Health & Wellbeing of Young People? Contributions From Developmental Psychopathology & Educational Effectiveness Research James Elliot Hall, Jana Marinka Kreppner, 2019-11-27 How can education better support the mental health wellbeing of young people Research in the 1970s that addressed this question has since proven seminal to the development of two co existing fields of research that continue to offer mutually informative insights Developmental Psychopathology DP and Educational Effectiveness Research EER DP and EER share the common agenda of understanding factors that relate to individuals learning and development DP focuses on the individual learning

and developing in context EER investigates the educational systems structures and processes that shape how individuals learn and develop. Given the complementarity of DP and EER it is somewhat surprising that they have rarely joined forces and synthesised knowledge to develop a fuller understanding of the roles educational contexts play in the mental health and wellbeing of students. This Research Topic aims to stimulate such collaboration.

Madhubalan Viswanathan, S. Gajendiran, R. Venkatesan, 2008-06-01 This book is the result of several years of research curriculum development and testing of a consumer and entrepreneurial literacy educational program for illiterate low income adults in India Whereas there has been considerable attention on micro financing in recent decades we describe an educational program that focuses on enabling generic skills about the marketplace and complements these important efforts We conducted research aimed at understanding lives and marketplaces in subsistence contexts in urban and rural parts of a state in South India We used the research as a basis for developing a consumer and entrepreneurial literacy educational program This program uses the know why or an understanding of marketplaces as a basis for the know how of being an informed buyer or seller Despite the difficulties with abstract thinking that low literate individuals experience we enable deeper understanding of marketplaces by leveraging the social skills that participants bring to the program and relating educational content back to their lived experiences Such understanding can enable individuals to embark on a path to lifelong learning A detailed explanation of the evolution of this work follows
