Slaughter Animals

Temple Grandin, Michael Cockram

Slaughter Animals:

Killing Animals Animal Studies Group, 2006 Though not often acknowledged openly killing represents by far the most common form of human interaction with animals These multidisciplinary essays reveal the complexity of this phenomenon by exploring the extraordinary diversity in killing practices and the wide variety of meanings attached to them Preslaughter handling and slaughter of meat animals Luigi Faucitano, 2023-08-14 Preslaughter handling and slaughter of meat animals is unique because it covers the entire period of preslaughter period and slaughter and its effects on the welfare of multiple species destined for meat production Several chapters describe the current knowledge on all welfare topics from pre transport preparation at the farm to stunning and slaughter and the assessment of animal welfare and stress through physiological behavioural and meat and carcass quality measures Other chapters cover new and important topics such as mobile slaughter and preslaughter handling and slaughter of non traditional meat species This unique and comprehensive work is written by internationally renowned experts and accomplished scientists in the field who are engaged in active research laboratories and who have demonstrated their devotion to animal care and welfare This work will be of interest and relevance to animal scientists academics students animal welfare and industry associations policy makers veterinarians livestock and poultry chain stakeholders and all those involved in and who care about the humane handling of meat species

The Slaughter of Farmed Animals Temple Grandin, Michael Cockram, 2020-06-03 This book provides both evidence based scientific studies and practical guidance to enhance the welfare of cattle pigs sheep and poultry at slaughter Temple Grandin and Michael Cockram have brought together a range of international experts to prepare chapters on philosophical and ethical views on the slaughter of farmed animals These include welfare issues and their assessment the condition of animals on arrival and their management during lairage animal handling methods of humane slaughter and assessment of unconsciousness The book boldly tackles controversial issues around the compromises necessary when balancing animal welfare concerns with commercial realities as well as religious slaughter Chapters cover methods of stunning pre slaughter handling equipment design monitoring welfare with abattoir data and auditing methods It is an important publication for those involved in implementing improvements in the humane slaughter of farmed animals and is recommended for

Transport of Animals Intended for Breeding, Production and Slaughter R. Moss, 2012-12-06 The transport of farm livestock was the subject of the seminar held from 7 8 July 1981 at the Commission of the European Communities CECl Directorate General for Agriculture Brussels as part of the work of the Division Coordinating Agricultural Research The aims of the seminar were to examine the knowledge available on how the physiology and behaviour of animals may change during transport to consider the significance of these changes in relation to welfare and economics and to assess those actions which as experimental projects or observational studies might be proposed to fill the most important gaps in our knowledge of the welfare of farm animals during transport A number of

conclusions can be drawn from the proceedings 1 Much knowledge is available from both scientific observations and practical experience which could be used to improve the transport of livestock Methods of loading the construction of vehicles ships crates and aircraft could benefit from the application of existing knowledge It is less clear whether it is best to concentrate on disseminating existing knowledge by education and advice or to contemplate more regulations 2 Losses by down grading at slaughter can largely be attributed to the ways in which animals are transported and handled *Animals and the Law* Jordan Curnutt,2001-11-02 Offers a comprehensive overview of the legislation and legal issues surrounding animals Written by Jordan Curnutt *Animals and the Law* covers everything from the Silver Spring monkeys subjects in the first U S lab raided by police where criminal charges were filed against a scientist conducting federally funded research to sex with animals Among the subjects reviewed are kosher and Halal food restrictions mad cow disease and cattle cannibalism animals in laboratories and as entertainment in circuses zoos rodeos horse racing cockfighting and more Also included are appendixes of animal organizations cases statutes and regulations and an extensive bibliography *Meat Animals, Production, Disposition, Income* ,1981 Protecting Animals Within and Across Borders Charlotte E. Blattner,2019 How can we protect animals more effectively both at home and abroad given the ongoing globalization of animal production This book provides a catalogue of options for extraterritorial jurisdiction which states can employ to strengthen their animal laws It offers top down perspectives drawn from general international law and trade law and complements them by a bottom up view from the perspective of animal law *Meat Animals, Production, Disposition, and Income* ,1985 *Title 9 Animals and Animal Products Parts 1 to 199 (Revised as of January 1, 2014)* Office of The Federal Register, Enhanced by IntraWEB, LLC,2014-01-01 The Code of Federal Regulations Title 9 contains the codified Federal laws and regulations that are in effect as of the date of the publication pertaining to animals and animal products including animal feeding health stockyards and processing and animal related food safety and inspections *The Ethics of Killing* Jeff McMahan,2002 Drawing on philosophical notions of personal identity and the immorality of killing Jeff McMahan looks at various issues including abortion infanticide the killing of animals assisted suicide and euthanasia Food, Animals, and the Environment Christopher Schlottmann,Jeff Sebo,2018-09-14 *Food Animals and the Environment An Ethical Approach* examines some of the main impacts that agriculture has on humans nonhumans and the environment as well as some of the main questions that these impacts raise for the ethics of food production consumption and activism Agriculture is having a lasting effect on this planet Some forms of agriculture are especially harmful For example industrial animal agriculture kills 100 billion animals per year consumes vast amounts of land water and energy and produces vast amounts of waste pollution and greenhouse gas emissions Other forms such as local organic and plant based food have many benefits but they also have many costs especially at scale These impacts raise difficult ethical questions What do we owe animals plants species and ecosystems What do we owe people in other nations and future generations What are the ethics of risk uncertainty and collective harm

What is the meaning and value of natural food in a world reshaped by human activity What are the ethics of supporting harmful industries when less harmful alternatives are available What are the ethics of resisting harmful industries through activism advocacy and philanthropy The discussion ranges over cutting edge topics such as effective altruism abolition and regulation revolution and reform individual and structural change single issue and multi issue activism and legal and illegal activism This unique and accessible text is ideal for teachers students and anyone else interested in serious examination of one of the most complex and important moral problems of our time Meat Animals and Packing-house Products United States.
