strange and often disconcerting weathers climates landscapes and topographies Gothic travel epitomises the wonder excitement suspicion or incomprehension that arises from journeys through familiar and unfamiliar terrain While exposure to the wild elemental or primitive could produce the elevation of the sublime in early Gothic increasingly the experience of travel raised unsettling questions about people places and environments that lay beyond established frames of knowledge Gothic travellers are haunted never alone and the experience of journeying through these landscapes provokes fears that may shadow them even after they have returned to home ground Climates of Fear reveals the persistent ways in which Gothic narratives of travel confront fears about the environment surveillance im migration and the foreign These abiding concerns speak loudly to the present time however when the encroachments on our immediate surroundings from climate change digital communication and geopolitical dislocation seem at once remote and intimate invisible yet urgent Thus the book also asks whether recent portrayals of Gothic journeys now pose different questions to the reader
