Hummon, 1990-07-05 This book interprets popular American belief and sentiment about cities suburbs and small towns in terms of community ideologies Based on in depth interviews with residents of American communities it shows how people construct a sense of identity based on their communities and how they perceive and

explain community problems e g why cities have more crime than their suburban and rural counterparts in terms of this identity Hummon reveals the changing role of place imagery in contemporary society and offers an interpretation of American culture by treating commonplaces of community belief in an uncommon way as facets of competing community ideologies He argues that by adopting such ideologies people are able to make sense of reality and their place in the everyday world
