Smuts The Patriot:

The Boer War Fred R. van Hartesveldt, 2000-05-30 One hundred years after the Boer War the British continue to debate what went wrong while the war has significant nationalist overtones in today's South Africa This book examines changes in interpretations of the war and provides a bibliography of major sources on the Boer War now sometimes called the South African War The bibliography focuses on the military history but also includes some historical accounts of the political debate The first part of the book provides an extended historiographical essay while part two provides an annotated bibliography of the titles discussed in part one Historiographical questions concerning the Boer War are numerous Discussions of military operations focus on the early use of modern weaponry and the effect of guerrilla tactics on a traditional force while other historians debate the question of British military leadership and organization Questions also revolve around British imperialism and the scramble for Africa Frequently called the second war for freedom by South African authors the war was the reason that South Africa unlike other British colonies gained independence without majority rule This makes the war of continuing relevance to the turmoil in South Africa the collapse of the minority government and the continuing problems of the current government This book will provide a useful tool for those wishing to research the war

The White Tribe of Africa David Harrison, 1983-10-01 *The Last Hurrah* Graham Viney, 2019-04-18 Young Elizabeth captures in vivid detail perhaps the single most important formative experience in Queen Elizabeth's life the 1947 royal tour of southern Africa with her parents King George VI Queen Elizabeth and Princess Margaret during which she celebrated her twenty first birthday The year of the royal tour of southern Africa 1947 marked both the high water mark of the British Empire and the very moment at which it began to unravel Graham Viney has written an intimate revealing portrait of the young princess on tour with her parents and sister Princess Margaret hard at work in the national interest and succeeding triumphantly against all odds In the words of Rian Malan South African author of *My Traitor's Heart* it is a story about a country teetering on the brink of convulsive change and yet almost united at least for a moment by love for a king and queen who weren't really ours The year 1947 was a pivotal moment not just in the history of the Union of South Africa but of the British Empire itself Later that same year India gained independence and just one year later the Afrikaner Nationalist victory in South Africa would lead inexorably to the Republic of South Africa in 1961 and its departure from the Commonwealth The present Queen Elizabeth must have learned a great deal about statecraft from her father and about duty tact and hard work from both her parents in the course of this three month tour during which the then princess celebrated her twenty first birthday It was also the family's first real experience of multiculturalism Graham Viney's book gives us an intimate and revealing portrait of the royal family while also superbly capturing a moment in the life of a fractious recently formed nation before its descent into over four decades of darkness The royal family travelled ceaselessly from February to April on a specially commissioned white and gold train meeting thousands of people at every stop along the way The tour was a show of imperial solidarity and a recognition of

South Africa's contribution to the Allied cause during the Second World War specifically that of South African prime minister Jan Smuts who had served in both British war cabinets Young Elizabeth draws skilfully on many diverse sources not least the Royal Archive at Windsor and includes many photographs of the royal family not previously published such as stills from film footage held by the South African National Film Video and Sound Archives in Pretoria South Africa Under Apartheid Jacqueline Audrey Kalley, 1989 As apartheid's crisis has deepened so interest in South Africa's past present and future has increased With this scholarly and popular writing on the country has proliferated This 1100 entry bibliography guides the scholar or interested layman through the relevant literature on South Africa and the policy of apartheid Its cumulative impact is how racial domination permeates all aspects of modern South African society Brief informative annotations facilitate choice and the extensive subject and author indexes provide quick access Copyright Libri GmbH All rights reserved A Patriot's History of Globalism Larry Schweikart, 2024-02-20 Larry Schweikart has won wide acclaim for his number one New York Times bestseller A Patriot's History of the United States Now with A Patriot's History of Globalism Schweikart shows that globalism or the attempt to form a one world government is nothing new In the wake of Napoleon's defeat in 1814 the globalists of the day mostly monarchs sought to create a governing arrangement for Europe Within forty years three of the major participants were at war with each other After World War I they tried again at Versailles this time even more aggressively changing boundaries of nations and moving populations That attempt only lasted twenty years before another major war between the participants Yet again after World War II globalists used the threat of the atomic bomb to try to form an international government with the United Nations Most recently the World Economic Forum and World Health Organization are attempting to minimize nationalities with global control of money and medicine But there are signs this tide has been reversed and is finally in decline A Patriot's History of Globalism is the gold standard text for the history of globalism **Ency Wld Bio 2 V14** . Bourgoin, 1998 **The South African Gandhi** Ashwin Desai, Goolam Vahed, 2015-10-07 A biography detailing Gandhi's twenty year stay in South Africa and his attitudes and behavior in the nation's political context In the pantheon of freedom fighters Mohandas Karamchand Gandhi has pride of place His fame and influence extend far beyond India and are nowhere more significant than in South Africa India gave us a Mohandas we gave them a Mahatma goes a popular South African refrain Contemporary South African leaders including Mandela have consistently lauded him as being part of the epic battle to defeat the racist white regime The South African Gandhi focuses on Gandhi's first leadership experiences and the complicated man they reveal a man who actually supported the British Empire Ashwin Desai and Goolam Vahed unveil a man who throughout his stay on African soil stayed true to Empire while showing a disdain for Africans For Gandhi whites and Indians were bonded by an Aryan bloodline that had no place for the African Gandhi's racism was matched by his class prejudice towards the Indian indentured He persistently claimed that they were ignorant and needed his leadership and he wrote their resistances and compromises in surviving a brutal labor regime

out of history The South African Gandhi writes the indentured and working class back into history The authors show that Gandhi never missed an opportunity to show his loyalty to Empire with a particular penchant for war as a means to do so He served as an Empire stretcher bearer in the Boer War while the British occupied South Africa he demanded guns in the aftermath of the Bhambatha Rebellion and he toured the villages of India during the First World War as recruiter for the Imperial army This meticulously researched book punctures the dominant narrative of Gandhi and uncovers an ambiguous figure whose time on African soil was marked by a desire to seek the integration of Indians minus many basic rights into the white body politic while simultaneously excluding Africans from his moral compass and political ideals Praise for The South African Gandhi In this impressively researched study two South African scholars of Indian background bravely challenge political myth making on both sides of the Indian Ocean that has sought to canonize Gandhi as a founding father of the struggle for equality there They show that the Mahatma to be carefully refrained from calling on his followers to throw in their lot with the black majority The mass struggle he finally led remained an Indian struggle Joseph Lelyveld author of Great Soul Mahatma Gandhi and His Struggle with India This is a wonderful demonstration of meticulously researched evocative clear eyed and fearless history writing It uncovers a story some might even call it a scandal that has remained hidden in plain sight for far too long The South African Gandhi is a big book It is a serious challenge to the way we have been taught to think about Gandhi Arundhati Roy author of The God of Small Things **Kenya from Within** William McGregor Ross,1927

Equal Rights,1927 Empire Review ,1928 Royal tourists, colonial subjects and the making of a British world, 1860-1911 Charles Reed,2016-02-01 This electronic version has been made available under a Creative Commons BY NC ND open access license This study examines the ritual space of nineteenth century royal tours of empire and the diverse array of historical actors who participated in them It suggests that the varied responses to the royal tours of the nineteenth century demonstrate how a multi centred British imperial culture was forged in the empire and was constantly made and remade appropriated and contested In this context subjects of empire provincialised the British Isles centring the colonies in their political and cultural constructions of empire Britishness citizenship and loyalty **Militant Protestantism and British Identity, 1603-1642** Jason White,2015-10-06 Focusing on the impact of Continental religious warfare on the society politics and culture of English Scottish and Irish Protestantism this study is concerned with the way in which British identity developed in the early Stuart period Rhodesiana ,1975 **South Africa** ,1907 **Empires Without Imperialism** Jeanne Morefield,2014-03-12 The end of the Cold War ushered in a moment of nearly pure American dominance on the world stage yet that era now seems ages ago Since 9 11 many informed commentators have focused on the relative decline of American power in the global system While some have welcomed this as a salutary development outspoken proponents of American power particularly neoconservatives have lamented this turn of events As Jeanne Morefield argues in Empires Without Imperialism the defenders of a liberal international order steered by the US have both invoked nostalgia for a golden

liberal past and succumbed to amnesia forgetting the decidedly illiberal trajectory of US continental and global expansion Yet as she shows the US is not the first liberal hegemon to experience a wave of misguided nostalgia for a bygone liberal order England had a remarkably similar experience in the early part of the twentieth century The empires of the US and the United Kingdom were different in character the UK s was territorially based while the US relied more on pure economic power yet both nations mouthed the rhetoric of free markets and political liberty And elites in both painted pictures of the past in which first England and then the US advanced the cause of economic and political liberty throughout the world Morefield contends that at the times of their decline elites in both nations utilized the attributes of an imagined past to essentialize the nature of the liberal state Working from that framework they bemoaned the possibility of liberalism s decline and suggested a return to a true liberal order as a solution to current woes By treating liberalism as fixed through time however they actively forgot their illiberal pasts as colonizers and economic imperialists According to Morefield these nostalgic narratives generate a cynical politics in the passive where the liberal state gets to have it both ways it is both compelled to act imperially to save the world from illiberalism and yet is never responsible for the outcome of its own illiberal actions in the world or at home By comparing the practice and memory of liberalism in early nineteenth century England and the contemporary United States Empires Without Imperialism addresses a major gap in the literature While there are many examinations of current neoliberal imperialism by critical theorists as well as analyses of liberal imperialism by scholars of the history of political thought no one has of yet combined the two approaches It thus provides a much fuller picture of the rhetorical strategies behind liberal imperialist uses of history At the same time the book challenges presentist assumptions about the novelty of our current political moment

Heroes of the Boer War Frederik Rompel, 1903 **European-language Writing in Sub-Saharan Africa** Albert S. Gérard, 1986 *The Great Indian Patriots* P. Rajeswar Rao, 1991 **How to Hide an Empire** Daniel Immerwahr, 2019-02-19 Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 A 2019 NPR Staff Pick A pathbreaking history of the United States overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states And we are also familiar with the idea that the United States is an empire exercising power around the world But what about the actual territories the islands atolls and archipelagos this country has governed and inhabited In *How to Hide an Empire* Daniel Immerwahr tells the fascinating story of the United States outside the United States In crackling fast paced prose he reveals forgotten episodes that cast American history in a new light We travel to the Guano Islands where prospectors collected one of the nineteenth century s most valuable commodities and the Philippines site of the most destructive event on U S soil In Puerto Rico Immerwahr shows how U S doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U S Congress In the years after World War II Immerwahr notes the United States moved away from colonialism Instead it put innovations in electronics transportation and culture to use devising a new

sort of influence that did not require the control of colonies Rich with absorbing vignettes full of surprises and driven by an original conception of what empire and globalization mean today *How to Hide an Empire* is a major and compulsively readable work of history *Problems of To-morrow* Fred Abijah Rees, 1918

Immerse yourself in the artistry of words with Crafted by is expressive creation, **Smuts The Patriot** .
