Snow Forest Silence The Finnish Tradition Of Semiotics:

Snow, Forest, Silence Eero Tarasti, 1999-06-22 Thirty high level essays on various aspects of semiotics by Finnish Estonian and Hungarian scholars *Global Semiotics* Thomas A. Sebeok, 2001 The study of semiotics underwent a gradual but radical paradigm shift during the past century from a glottocentric language centered enterprise to one that encompasses the whole terrestrial biosphere In this collection of 17 essays Thomas A Sebeok one of the seminal thinkers in the field shows how this progression took place His wide ranging discussion of the evolution of the field covers many facets including discussions of biosemiotics semiotics as a bridge between the humanities and natural sciences semiosis nonverbal communication cat and horse behavior the semiotic self and women in semiotics This thorough account will appeal to seasoned scholars and neophytes alike The Routledge Companion to Semiotics and Linguistics Paul Cobley, 2005-11-30 The Routledge Companion to Semiotics and Linguistics opens up the world of semiotics and linguistics for newcomers to the discipline and provides a useful ready reference for the more advanced student **Lotman's Cultural Semiotics and the Political** Andrey Makarychev, Alexandra Yatsyk, 2017-04-18 Yuri Lotman 1922 1993 was a prominent Russian intellectual and theorist This book presents a new reading of his semiotic and philosophical legacy The authors analyse Lotman s semiotics in a series of temporal contexts starting with the rigidity of Soviet era ideologies through to the post Soviet de politicization that paradoxically enough ended with the reproduction of Soviet style hegemonic discourse in the Kremlin and ultimately reignited politically divisive conflicts between Russia and Europe The book demonstrates how Lotman s ideas cross disciplinary boundaries and their relevance to many European theorists of cultural studies discourse analysis and political philosophy Lotman lived and worked in Estonia which even under Soviet rule maintained its own borderland identity located at the intersection of Russian and European cultural flows The authors argue that in this context Lotman s theories are particularly revealing in relation to Russian European interactions and communications both historically and in a more contemporary sense It's Silence, Soundly John McGreal, 2016-04-21 It s Silence Soundly It s Nothing Seriously and It s Absence Presently continue The It Series published by Matador since The Book of It 2010 They constitute another stage in an artistic journey exploring the visual and audial dialectic of mark word and image that began over 25 years ago In their aesthetic form the books are a decentred trilogy united together in a new concept of The Bibliograph All three present this new aesthetic object which transcends the narrow limits of the academic bibliography The alphabetical works also share a tripartite structure and identical length The Bibliograph itself is characterised by its strategic place within each book as a whole as well as by the complex variations in meaning of the dominant motifs nothing ness absence and silence which recur throughout the alphabetical entries that constitute the elements of each text It s Nothing Seriously for example addresses the amusing paradox that so much continues to be written today about nothing The aleatory character of the entries in the texts encourage the modern reader to reflect on each theme and to read them in a new way The reader is invited as well to

examine their various inter textual relations across given conventional boundaries in the arts and sciences at several levels of physical psychical social reproduction **RecordCovid19** Kristopher Lovell,2023-08-21 RecordCovid19 Historicizing Experiences of the Pandemic provides insights into the experience of the Covid19 pandemic from an historical and sociological perspective Using the first hand testimonies submitted as part of the RecordCovid19 project as its inspiration the chapters in this edited collection explore and contextualise the initial responses to the Covid19 pandemic The collection examines people s relationships with Covid19 as an historical event including their own experiences of living through history their relationship with their surroundings including their relationships with family the soundscapes and the emotional environments of a pandemic world the impact and tone of political rhetoric including the use and misuse of wartime myths and language in the United Kingdom and finally what lessons can be learnt from how people discuss their own personal stories and what lessons can we draw from previous examples of storytelling in moments of crisis The result is a fascinating and rich discussion derived from an archive full of idiosyncratic experiences of life changing during the Covid19 pandemic
