So You Want To Write a Book On Islam Giacomo Latta, 2017-12-20 This book is nominally the results of an attempt to find a publisher willing to contract with the author for the printing of a thesis on the inability of Western liberal society to

critique Islam without applying a politically correct glory to Islam bent to opinions and observations As the title suggests it is far easier to find a pro Islam book than one that even suggests that Islam needs to be placed under investigation even after declaring a tabula rasa where opinions on it are concerned Once the publishing problems have been identified and explained the book continues with the results of a study the author has performed on this religion which is difficult to treat as a religion when viewed through Western eyes The contents are a no holds barred record of everything attached to Islam in its early days and much of what has been proclaimed by Islamic scholars and religious pontificators in later years This is not an Islam for Dummies sequel It delves into all books booklets really that compose the Koran It explains what is written with the aid of behind the scenes information since what is written in the Koran is not always explained When you are nothing less than the only living prophet of Allah then explanations are not required Clearly its sole author the prophet Muhammad felt he was not shown the kind and amount of respect that prophets of Allah deserve as he felt a need to explain why he did not practise what he preached Once you have finished this book and understand what Islam is all about you will be saying to yourself This is a religion
