

# SOCCER

## Positions

- Goal Keeper or Goalie**  
The "keeper" wears different colors than their team and is responsible for preventing goals by using hands to prevent the ball from entering the goal. They are the only players allowed to touch the ball with their hands during play.
- Sweeper**  
Positioned behind the fullbacks, the sweeper is a defensive player who collects loose balls near the goal. They are the last line of defense in breakaways and their presence allows the fullbacks to move up and join the offensive attack.
- Fullback or Defense**  
Defenders who shadow (mark) opposing forwards and attempt to prevent direct shots on goal. When they gain possession of the ball, fullbacks begin the attack by passing up to the midfielders.
- Midfielder or Halfback**  
Midfielders are key to both the offense and the defense. On offense, they pass (distribute) the ball forward and support the attack by advancing toward the opponent's goal. On defense, they try to stop the attack before it gets close to their goal.
- Wing or Forward**  
Swift, accurate passers, wings make long runs, hoping to draw defenders into the corners. From there, they have the opportunity to pass (cross) the ball into the middle.
- Striker or Center Forward**  
Strikers are primarily offensive players who are accurate shooters. Their task is to capitalize on the scoring opportunities that come their way.

## Start of Play

**KICKOFF:** Each half begins with the teams placed on the side of the halfway line containing their goal. Play starts by one team kicking the ball across the line into the other's zone. After each goal, these positions are taken again and the scored-upon team kicks off.

**THROW-INS:** When either team causes the ball to cross a sideline (side "into touch"), the opposite side throws the ball back into play. The throw must be made with both hands on the ball, and both feet on the ground.

**CORNER KICK:** When the defending team directs the ball across their own goal line, the attacking team kicks the ball back into play from the nearest corner.

**GOAL KICK:** When the attacking team directs the ball across the defender's goal line, the defending goalkeeper kicks the ball back into play.

## QUICK FACT BOX

- ORIGIN (OF NAME):** To score by kicking or heading the ball successfully into the opponent's goal.
- GOALKEEPER:** Has 30 seconds to throw the ball out of play after it has been kicked into the goal. They are the only player who can use their hands in game play.
- OFFENSE:** The attacking team attempts to score by kicking or heading the soccer ball into the opposing team's goal. By using ball control skills to pass and dribble they attempt to create scoring opportunities. Attackers without the ball run into open parts of the field to receive passes. This is called "creating space" and may open a gap in the defense, creating a chance for a shot on goal.
- DEFENSE:** To prevent the offense from scoring, the defending team must play a precise positional game. They must do their best to keep the attacking side out of the Penalty Area, where the chance of the offense scoring is much higher. To accomplish this the defense often parks the middle of the field with players. At the same time, they work to get possession of the ball if an attacker takes a shot, or makes a last pass.

## Game Overview

The most popular sport in the world, soccer (known as football outside North America) is played in almost every country. Players are not allowed to use their hands or arms, except in emergencies, so the game really comes down to foot control of the ball. The goalie is the only player who can use their hands in game play.

**OFFENSE:** The attacking team attempts to score by kicking or heading the soccer ball into the opposing team's goal. By using ball control skills to pass and dribble they attempt to create scoring opportunities. Attackers without the ball run into open parts of the field to receive passes. This is called "creating space" and may open a gap in the defense, creating a chance for a shot on goal.

An "offside" foul is called when the ball is passed to a player

that is closer to the other team's goal than both the ball and that team's last defender. You cannot be offside on a corner kick, goal kick, or throw-in. This foul is to prevent unfair fast-break goals.

**DEFENSE:** To prevent the offense from scoring, the defending team must play a precise positional game. They must do their best to keep the attacking side out of the Penalty Area, where the chance of the offense scoring is much higher. To accomplish this the defense often parks the middle of the field with players. At the same time, they work to get possession of the ball if an attacker takes a shot, or makes a last pass.
