## **So Reason Can Rule Reflections On Law And Politics:**

So Reason Can Rule Scott Milross Buchanan,1982      *From Violence to Peace* Alex Deagon,2017-08-24 This book contributes to the literature on jurisprudence and theology by arguing for the role of a theoretically robust Christian theology in a legal community dominated by secular and liberal ideology It is not a doctrinal or empirical analysis but a theoretical exposition of the way in which modern law has contingently drifted from its theological origins As a result the legal system and the ideal of individual and communal relationship it envisages is characterised by antagonism and alienation or more broadly violence The book contends that the way to restore a legal community of peace is to return to a Christian theology which is informed by Trinitarian thinking or the notion of unity in diversity and reunites faith with reason Returning reason to its ground in being allows peaceful persuasion by the revelation of God s perfect being through the Trinity and Incarnation which models and enables the peaceful coexistence of difference through self sacrificing love This in turn produces the law of love to love your neighbour as yourself Since love does no wrong to a neighbour a legal community operating by the law of love can fulfil the obligations of law by going beyond merely what is required by law and love individuals as part of a community      **Archival Theory, Records, and the Public** Trevor Livelton,Society of American Archivists,2003 Now in paperback Livelton considers the nature of public records from an archival perspective analyzing concepts rather than the daily realities with which public records archivists deal However his carefully reasoned conclusions provide a strong foundation on which principled rather than ad hoc decisions can be made and so will be of interest to teachers students and practitioners of archival science The author presents a general or theoretical view of public records as documents made or received and preserved by the sovereign or its agents in the conduct of governance This analysis is illustrated by a variety of examples including a discussion of freedom of information      *Liberalism* Marcus G. Raskin,2004 Contrary to those who believe that liberalism has descended into the dustbins of history renowned political activist and social critic Marcus G Raskin argues that there is no escape from liberalism Against the empty headed and mean spirited conservative onslaught of recent times Raskin asserts and ably demonstrates how the liberal purpose is tied to human liberation and inclusivity for all people For liberalism to succeed in a new century it must reckon with its past mistakes especially its reluctance to be bold It must also embrace the inextricably interwoven character of morality and politics To this end Raskin seeks no less than a new intellectual and spiritual covenant in the university the political economy and foreign policy He shows how this is possible through a radical rethinking of America s role in the world including war avoidance and economic restructuring He probes the tensions and limits as well as the promise of community family and technology He helps us to recognize the potential of a new multiculturalism within American society and the important role that knowledge workers and specialists will play as change agents in a changed world *Liberalism The Genius of American Ideals* traces Raskin s remarkable journey of the last 50 years through social and political action as well as thought It is a book for people in motion who realize the importance of

humane ideas in relation to action aware that it is not only that peace should be given a chance but that our best instincts must also be engaged through the reconstruction of our institutions In the face of a new distinctly uncompassionate brand of conservatism that has shuttered the doors to the very real world of struggle alienation and pain Liberalism is intended to hold out a candle in the window of this dark time

[Fair Reflection of Society in Judicial Systems - A Comparative Study](#) Sophie Turenne, 2015-07-20 This book addresses one central question if justice is to be done in the name of the community how far do the decision makers need to reflect the community either in their profile or in the opinions they espouse Each contributor provides an answer on the basis of a careful analysis of the rules assumptions and practices relating to their own national judicial system and legal culture Written by national experts the essays illustrate a variety of institutional designs towards a better reflection of the community The involvement of lay people is often most visible in judicial appointments at senior court level with political representatives sometimes appointing judges They consider the lay involvement in the judicial system more widely from the role of juries to the role of specialist lay judges and lay assessors in lower courts and tribunals This lay input into judicial appointments is explored in light of the principle of judicial independence The contributors also critically discuss the extent to which judicial action is legitimised by any democratic pedigree of the judges or their decisions The book thus offers a range of perspectives all shaped by distinctive constitutional and legal cultures on the thorny relationship between the principle of judicial independence and the idea of democratic accountability of the judiciary
