**Century** Irwin F. Gellman,2022-01-04 Based on massive new research a compelling and surprising account of the twentieth century s closest election The 1960 presidential election between John F Kennedy and Richard Nixon is one of the most frequently described political events of the twentieth century yet the accounts to date have been remarkably unbalanced Far more attention is given to Kennedy s side than to Nixon s The imbalance began with the first book on that election Theodore White s The Making of the President 1960 in which as he later admitted White deliberately cast Kennedy as the hero and Nixon as the villain and it has been perpetuated in almost every book since then Few historians have attempted an unbiased account of the election and none have done the archival research that Irwin F Gellman has done Based on previously unused sources such as the FBI s surveillance of JFK and the papers of Leon Jaworski vice presidential candidate Henry Cabot Lodge and many others this book presents the first even handed history of both the primary campaigns and the general election The result is a fresh engaging chronicle that shatters long held myths and reveals the strengths and weaknesses of both candidates **Cold War in Southern Africa**

**Albert Gore, Sr.** Anthony J. Badger,2018-12-07 In chronicling the life and career of Albert Gore Sr historian Anthony J Badger seeks not just to explore the successes and failures of an important political figure who spent more than three decades in the national eye and whose son would become Vice President of the United States but also to explain the dramatic changes in the South that led to national political realignment Born on a small farm in the hills of Tennessee Gore served in Congress from 1938 to 1970 first in the House of Representatives and then in the Senate During that time the United States became a global superpower and the South a two party desegregated region Gore whom Badger describes as a policy oriented liberal saw the federal government as the answer to the South s problems He held a resilient faith according to Badger in the federal government to regulate wages and prices in World War II to further social welfare through the New Deal and the Great Society and to promote economic growth and transform the infrastructure of the South Gore worked to make Tennessee the atomic capital of the nation and to protect the Tennessee Valley Authority while at the same time cosponsoring legislation to create the national highway system He was more cautious in his approach to civil rights though bolder than his moderate Southern peers he struggled to adjust to the shifting political ground of the 1960s His career was defined by his relationship with Lyndon Johnson whose Vietnam policies Gore bitterly opposed The injection of Christian perspectives into the state s politics ultimately distanced Gore s worldview from that of his constituents Altogether

Gore's political rise and fall Badger argues illuminates the significance of race religion and class in the creation of the modern South      The Material of World History Tina Mai Chen, David S. Churchill, 2015-03-27 This volume considers the confluence of World History and historical materialism with the following guiding question in mind given developments in the field of historical materialism concerned with the intersection of race gender labour and class why is it that within the field of World History historical materialism has been marginalized precisely as World History orients toward transnational socio cultural phenomenon micro studies or global histories of networks Answering this question requires thinking in an inter related manner about both the development of World History as a discipline and the place of economic determinism in historical materialism This book takes the position that historical materialism as applied to the field of World History needs to be more open to the methodological diversity of the materialist tradition and to refuse narrowly deterministic frameworks that have led to marginalization of materialist cultural analysis in studies of global capitalism At the same time World History needs to be more self critical of the methodological diversity it has welcomed through a largely inclusionary framework that allows the material to be considered separately from cultural social and intellectual dimensions of global processes

*Winning the Third World* Gregg A. Brazinsky, 2017-02-23 *Winning the Third World* examines afresh the intense and enduring rivalry between the United States and China during the Cold War Gregg A Brazinsky shows how both nations fought vigorously to establish their influence in newly independent African and Asian countries By playing a leadership role in Asia and Africa China hoped to regain its status in world affairs but Americans feared that China's history as a nonwhite anticolonial nation would make it an even more dangerous threat in the postcolonial world than the Soviet Union Drawing on a broad array of new archival materials from China and the United States Brazinsky demonstrates that disrupting China's efforts to elevate its stature became an important motive behind Washington's use of both hard and soft power in the Global South Presenting a detailed narrative of the diplomatic economic and cultural competition between Beijing and Washington Brazinsky offers an important new window for understanding the impact of the Cold War on the Third World With China's growing involvement in Asia and Africa in the twenty first century this impressive new work of international history has an undeniable relevance to contemporary world affairs and policy making      **Wounded Warrior** Lawrence M.

From Selma to Moscow Sarah B. Snyder,2018-04-24 The 1960s marked a transformation of human rights activism in the United States At a time of increased concern for the rights of their fellow citizens civil and political rights as well as the social and economic rights that Great Society programs sought to secure many Americans saw inconsistencies between domestic and foreign policy and advocated for a new approach The activism that arose from the upheavals of the 1960s fundamentally altered U S foreign policy yet previous accounts have often overlooked its crucial role In From Selma to Moscow Sarah B Snyder traces the influence of human rights activists and advances a new interpretation of U S foreign policy in the long 1960s She shows how transnational connections and social movements spurred American activism that achieved legislation that curbed military and economic assistance to repressive governments created institutions to monitor human rights around the world and enshrined human rights in U S foreign policy making for years to come Snyder analyzes how Americans responded to repression in the Soviet Union racial discrimination in Southern Rhodesia authoritarianism in South Korea and coups in Greece and Chile By highlighting the importance of nonstate and lower level actors Snyder shows how this activism established the networks and tactics critical to the institutionalization of human rights A major work of international and transnational history From Selma to Moscow reshapes our understanding of the role of human rights activism in transforming U S foreign policy in the 1960s and 1970s and highlights timely lessons for those seeking to promote a policy agenda resisted by the White House **The diplomacy of decolonisation** Alanna O'Malley,2018-01-31 The book reinterprets the role of the UN during the Congo crisis from 1960 to 1964 presenting a multidimensional view of the organisation Through an examination of the Anglo American relationship the book reveals how the UN helped position this event as a lightning rod in debates about how decolonisation interacted with the Cold War By examining the ways in which the various dimensions of the UN came into play in Anglo American considerations of how to handle the Congo crisis the book reveals how the Congo debate reverberated in wider ideological struggles about how decolonisation evolved and what

the role of the UN would be in managing this process The UN became a central battle ground for ideas and visions of world order as the newly independent African and Asian states sought to redress the inequalities created by colonialism the US and UK sought to maintain the status quo while the Secretary General Dag Hammarskjöld tried to reconcile these two contrasting views
