Cooper, 2010-02-10 For centuries it has been assumed that there are vast limits to human capacity Now although a host of scientific discoveries prove this wrong a mindset of limits persists blocking us from our greatest possibilities and leaving us feeling bombarded by stress change and uncertainty No matter how hard we work no matter how much we give we're still not getting what we hoped for There is another way Dr Robert Cooper a neuroscience pioneer and leadership advisor urges us to take a radically different view of human capacity We are mostly unused potential he says employing less than 10 percent of our brilliance or hidden talents In easy to follow steps he explains how to develop and apply the art and science of your hidden capacity The art is the motivation and inspiration coming from the wonderful stories that are the heart of The Other 90% Dr Cooper draws on his
