The Third Reformation Carter Lindberg, 1983 The Publishers' Trade List Annual, 1917 **The Social and Political Dimension of the Kingdom of God in Mark** Lawum Kayamba, 2021-12-22 What is the Kingdom of God understanding in Roman occupied Palestine as depicted in Mark's narrative is the goal of the book. The book stresses the social and political dimension of the Kingdom of God in Mark against a always futurist eschatological and spiritual understanding of the concept. The book then draws implications from the Mennonite Brethren church of Congo to see whether a shift paradigm of this concept can bring more empowerment and social economic and political vision of this conservative organization.

Beyond Charity Carter Lindberg, 1993-07-01 The common stereotype is that the Reformers separated public and private morality and were indifferent to the ethical import of social structures and institutions. Beyond Charity calls this understanding into question by providing an analysis of the historical situation and translations of primary documents. The medieval point of view formed by piety of achievement idealized poverty either as voluntary renunciation or as almsgiving. In either case the material effects on actual poverty were slight and the religious endorsement of poverty precluded urban efforts to address this growing problem. The Reformers impelled by their theology developed and passed new legislative structures for addressing social welfare needs. The key to their undertakings was the conviction that social ethics is the continuation of community worship. In the first half this book sets forth the medieval context details Luther's critique of the profit economy of his day and analyzes the actual social welfare programs that issued from his theology. The second half provides translations of selected legislative programs from the church orders of the Reformation.

A Conspiracy of Love, Second Edition Kurt Struckmeyer, 2024-12-10 Before there were worshipers of Jesus there were followers of Jesus. Before there were organized churches with creeds and doctrines there were small communities of love equality and sharing dedicated to the practice of Jesus teachings and committed to a wholly new way of living. Today the churches of the Global North are in decline and younger generations no longer seek meaning there. Traditional church Christianity is gradually giving way to some new way of faithful living. From a Nazi prison cell German pastor Dietrich Bonhoeffer imagined a future religionless Christianity consisting of contemplative prayer and righteous action in the secular world. A Conspiracy of Love presents the contours of such a faith based on the Way of Jesus. It calls us to become troublemakers revolutionaries seekers of change and agents of transformation engaged in

conspiracies of love to establish justice and peace in our postmodern world It offers many different people those who remain in the church those who have left and those who have never ventured near with a life of faith that is meaningful intelligent and passionate

The Great Reversal David Moberg, 2007-01-01 Why did the evangelical church which had been the leader in social welfare and reform prior to the twentieth century discontinue its involvement in social concerns Is a commitment to personal evangelism incompatible with an interest in social issues In this provocative book Dr Moberg analyzes the Great Reversal of the early twentieth century and discusses its causes and effects all in the context of seeing the Bible as the guide to faith and conduct The importance of recognizing and coping with social evil as well as personal sin is emphasized and the author concludes with a summary of developments that are helping to reverse the Great Reversal and restore evangelical Christianity to its rightful place of leadership
