E. Wolf, 2006 Subjectivity the speaker's expression of self in discourse is a relatively under researched area in the field of applied linguistics this book examines the role of subjectivity in the context of second language use Drawing on insights from discourse analysis and pragmatics it describes how a group of students studying French at degree level at the University of Cambridge England convey expressions of subjectivity in personal narratives and argumentative language In this book the author begins by introducing the reader to key areas in the study of discourse Using a methodology that has much in common with descriptive linguistics he provides a wide ranging account of how forms in language are used to convey the expression of subjectivity His particular concern is to examine how these markers of subjectivity are used differently by native and non native speakers of French The discussion is carefully supplemented throughout with a variety of exemplification and discourse types including personal narratives in French and English and transcripts of video taped interactions in role plays In the course of his analysis the author questions long held assumptions about the way French is taught in secondary schools and in higher education institutions The range of issues discussed as well as the variety of examples used will make this a valuable book not only for students of applied linguistics but also for any reader wishing to gain a deeper understanding of how the expression of subjectivity can contribute to the learning of a second language *The Anthropology of Learning in Childhood* David F. engage with the text Is accompanied by e resources which include further activities and additional coverage of points of interest in the book Written by an experienced teacher and author this book is an essential course textbook for any module on the history of English and the perfect accompaniment to the author s own *The History of Early English Staging Language* Urszula Clark,2019-01-14 Although there are many studies on linguistic variation as it relates to both traditional and new media such as film TV newspapers and online behavior little has been written about spoken performance in overt but face to face conversations This book bridges that gap and focuses on an in between zone between casual face to face conversations and the type of heavily scripted language of most traditional spoken media The book draws upon a substantial amount of empirical data in its investigation of the role played by performance texts in creating maintaining and challenging imagined communities and focuses upon the ways in which performance contributes to people s sense of the kinds of use for which dialect variational use is appropriate and those for which it is not It sheds light on how such stylization intersects with multiple social indexes and how performers and other creative artists challenge and mock hegemonic practices through enregistering a defined set of linguistic variables in the context of their performance and other associated written texts **A Marriage of Philosophy and Music** Erich Welling,2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in *A Marriage of Philosophy and Music* It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline *A Marriage of Philosophy and Music* attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art *Serving Vulnerable and Marginalized Populations in Social and Educational Contexts* Anies Al-Hroub,Sally Reis,Joseph Madaus,Itab Shuayb,2024-04-26 There is evidence that the global COVID 19 crisis is exacerbating existing inequalities and marginalization of vulnerable groups including exceptional learners stateless street migrant and refugee children and youths and the limited use of frameworks of emergency planning with and for marginalized and at risk individuals These challenges are multi sectoral and intersecting and they require multi and interdisciplinary interventions to inform inclusive responses These issues include being at a greater risk of excluding vulnerable learners from gaining access to equitable education online remote and blended education Intersecting forms of discrimination such as gender socioeconomic and legal status

further exacerbate the problem This has alerted us to examine the living conditions of marginalized and vulnerable populations around the globe and to reveal their experiences problems and needs from an educational perspective thus bringing insights into their vulnerabilities during the pandemic
