Teaching Aptitude Paper I Chapter wise Solved Papers    [Globalizing Cultural Studies](#) Cameron McCarthy,2007 The contributors to Globalizing Cultural Studies Ethnographic Interventions in Theory Method and Policy take as their central topic the problematic status of the global within cultural studies in the areas of theory method and policy and particularly in relation to the intersections of language power and identity in twenty first century post 9 11 culture s Writing against the Anglo centric ethnographic gaze that has saturated various cultural studies projects to date contributors offer new interdisciplinary autobiographical ethnographic textual postcolonial poststructural and political economic approaches to the practice of cultural studies This edited volume foregrounds twenty five groundbreaking essays plus a provocative foreword and an insightful afterword in which the authors show how globalization is articulated in the micro and macro dimensions of contemporary life pointing to the need for cultural studies to be more systematically engaged with the multiplicity and difference that globalization has proffered    *Mobile and Entangled America(s)* Maryemma Graham,Wilfried Raussert,2016-05-12 A superb combination of focused case studies and high level conceptual thinking this volume is an important monument in the ongoing development of Inter American studies The articles gathered here closely examine a wide variety of cultural phenomena implicated in the entanglements which have defined the history of the Americas From religious networks to music and dance and across a range of literary and artistic works the mobility of people objects and ideas in the Americas is expertly mapped At the same time the book represents a serious enterprise of theory building Drawing on the histories of postcolonial thought mobility studies and work on human migration Mobile and Entangled America s clearly establishes a new interdisciplinary field attentive both to the complexities of cultural form and the pervasiveness of power relations Each article stands as a significant piece of scholarship on its own but all are in dialogue with each other The result is a richly satisfying and important volume of cultural scholarship    *Pitirim A. Sorokin: Rediscovering a Master of Sociology* Emilia Mangione,2023-09-12 Pitirim A Sorokin is a controversial figure in the history of sociology of which he remains one of the masters Those who read Sorokin today must however frame the historical reality experienced by the scholar his Russian and American experiences because the evolution of his thought had several phases that correspond to his personal family and professional lives he founded and directed the Department of Sociology at Harvard University for many years This Russian American sociologist argued that socio cultural phenomena must be studied following their dynamism in space and time since the constituent elements personality society and culture are constantly changing and cannot be studied separately Reviving his thought is not a form of celebration but a moment to reflect on how some sociology classics still have their relevance and how all too often they are forgotten This is why this book takes up his main conceptualizations by anchoring them to contemporary society whose transformations are often difficult to read and above all to highlight how the role of sociology as a science has in part lost sight of its ontological foundation as a service to humanity or public service The theoretical paths taken by Sorokin range from Social and Cultural Dynamics to Social

Mobility and to many other topics such as man and society in calamities or love and altruism one of Sorokin's latest topics All these topics can revive the idea of a sociology that holds together the micro meso and macro dimensions and allows us to predict changes in society    **Epidemiologic Studies in Psychosomatic Medicine** S. Between China and Italy Valentina Pedone, Gaocheng Zhang, 2023-10-11 This book offers a critical analysis of global mobilities across China and Italy in history In three periods in the twentieth century new patterns of physical mobilities and cultural contact were established between the two countries which were either novel at the time of their emergence or impactful on subsequent periods The first two chapters provide overviews of writings by Italians in China and by Chinese in Italy in the twentieth century The remaining chapters cover Republican China's relationships with Italy and Italian Fascist colonialism in China during the 1920s 1930s Italian travelers to China during the Cold War from the 1950s to the 1970s migrations between China and Italy during the 2000s 2010s In analyzing these cultural mobilities this book opens a new line of inquiry in Chinese Italian Cultural Studies which has been dominated by historical study and contributes a significant case study to the scholarship on global cultural mobilities    **Interactions Between Iranian and American Literatures** Naghmeh Esmaeilpour, 2024-05-14

Introducing narrative mobility as a new approach in comparative studies of Iran and the US this book reinterprets the politics and aesthetics of relations between the nations through an analysis of Iranian and American authors The book focuses specifically on three authors Simin Daneshvar Shahriar Mandanipour and Don DeLillo who each employ narrative mobility to rethink intercultural negotiation addressing parallel issues in America and Iran from different but complementary perspectives The book analyzes the employment of parallel narrational techniques presenting physically and virtually mobile characters who embody their respective countries as they move from one culture to another The strange affinity between Iran and the US is ultimately revealed by viewing literary works as a contact zone through which the complicated relations and shared history of the two nations can be renegotiated On a more theoretical level the book reflects on the role of literature in particular the novel as a transnational medium as a bridge between nations in a period of globalization With its focus on cross cultural connections the book will be of interest to anyone studying or researching comparative literature US Iran relations and cultural studies generally
