Social Cognition and Aging Thomas M. Hess, Fredda Blanchard-Fields, 1999-06-18 Most of the research done in social cognition has been conducted with younger adults and may not be applicable to a much older population Social

Cognition and Aging provides a snapshot view of research that has been done with older adults or is directly applicable to this population. Focusing on issues of self identity, social interactions and social perceptions, this book provides a broad overview of how aging affects one's own perceptions and actions as well as how others perceive and interact with the aged. Coverage includes such topics as self control, memory, resilience, age stereotypes, moral development and the art of living. With contributions from top researchers in both gerontology and psychology, this book is an important reference for academics and professionals alike in personality, cognition, social psychology, adult development, sociology and gerontology.

Aging, Biotechnology, and the Future Catherine Y. Read, Robert C. Green, Michael A. Smyer, 2008-06-16 This wide ranging multidisciplinary collection examines how advances in medicine and technology are affecting the aging process and the lives of elderly persons. In analyzing the state of biotechnology, these essays applaud the positive extended longevity and the potential for greater quality of life while probing such ethical quandaries as presymptomatic genetic testing, therapeutic cloning, antiaging technologies and the transhumanist movement. The volume includes discussions about the respective roles of health care professionals, government and individuals in shaping a workable regulatory framework and unifying multiple perspectives to make the biotechnology revolution beneficial to all. Featuring contributions from renowned scholars of religion, ethics, philosophy, psychology, law, medicine and nursing and gerontology, *Aging, Biotechnology and the Future* illuminates the promises and perils of growing old in the biomedical age. Contributors: George J. Annas, Jessica Brommelhoff, Lisa Sowle Cahill, Margaret Gatz, Pamela J. Grace, Robert C. Green, Fernando A. Guerra, Rose M. Harvey, Kathy J. Horvath, Ann C. Hurley, Robert Lanza, Karen Lebacqz, Erin Linnenbringer, Maxwell J. Mehlman, Toni P. Miles, Sarah Moses, Thomas T. Perls, Leonard W. Poon, Catherine Y. Read, J. Aging and Identity Sara M. Deats, Lagretta Lenker, 1999-04-30 Viewing artistic works through the lens of both contemporary gerontological theory and postmodernist concepts, the contributing scholars examine literary treatments, cinematic depictions and artistic portraits of aging from Shakespeare to Hemingway, from Horton Foote to Disney, from Rembrandt to Alice Neale, while also comparing the attitudes toward aging in Native American, African American and Anglo American literature. The examples demonstrate that long before gerontologists endorsed a Janus faced model of aging, artists were celebrating the diversity of the elderly, challenging the bio medical equation of senescence with inevitable senility. Underlying all of this discussion is the firm conviction that cultural texts construct as well as encode the conventional perceptions of their society; that literature, the arts and the media not only mirror society's mores but can also help to create and enforce them.

Aging and Demographic Change in Canadian Context David J. Cheal, Professor of Department of Sociology, David Cheal, 2002-01-01 Contributors question whether an aging society is necessarily inferior or problematic compared with the recent past, cautioning that exaggerated concerns about population aging can be harmful to rational policy making.
