The Czech Manuscripts David L. Cooper, 2023-10-15 The Czech Manuscripts is dedicated to one of the most important literary forgeries on the model of Macpherson's Ossianic poetry The Queen's Court and Green Mountain Manuscripts discovered in 1817 and 1818 went on to play an outsized role in the Czech National Revival functioning as founding texts of the national mythology and serving as sacred works in the long period when they were considered genuine A successful literary forgery tells a lot about what a culture wants and needs at a particular moment One fascinating aspect of this story is how a successful fake was able to function in an integral way as part of the Czech cultural revival of the nineteenth century both because it played to expectations and nationalist values and because it met real cultural needs in many ways better than genuine historical literary works and artefacts Also fascinating is the vainglorious Vclav Hanka a prolific and dedicated forger who was likely the center of the conspiratorial ring that created the manuscripts and who went on as the librarian of the Czech National Museum to alter a number of others David Cooper analyzes what made the Manuscripts a convincing imitation of their Serbian and Russian models He looks at how translation shaped their composition and at the benefit of examining them as

pseudotranslations and investigates the quasi religious rituals and commemorative practices that developed around them The Czech Manuscripts brings the Czech experience into the broader developments of European history **Archaeology and the Homeric Epic** Susan Sherratt, John Bennet, 2016-11-30 The relationship between the Homeric epics and archaeology has long suffered mixed fortunes swinging between fundamentalist attempts to use archaeology in order to demonstrate the essential historicity of the epics and their background and outright rejection of the idea that archaeology is capable of contributing anything at all to our understanding and appreciation of the epics Archaeology and the Homeric Epic concentrates less on historicity in favor of exploring a variety of other perhaps sometimes more oblique ways in which we can use a multidisciplinary approach archaeology philology anthropology and social history to help offer insights into the epics the contexts of their possibly prolonged creation aspects of their prehistory and what they may have stood for at various times in their long oral and written history The effects of the Homeric epics on the history and popular reception of archaeology especially in the particular context of modern Germany is also a theme that is explored here Contributors explore a variety of issues including the relationships between visual and verbal imagery the social contexts of epic or sub epic creation or re creation the roles of bards and their relationships to different types of patrons and audiences the construction and uses of history as traceable through both epic and archaeology and the relationship between prehistoric oral and historical recorded in writing periods Throughout the emphasis is on context and its relevance to the creation transmission re creation and manipulation of epic in the present or near present as well as in the ancient Greek past

Romanian Folklore and its Archaic Heritage Ana R. Chelariu, 2023-02-13 This book presents rich information on Romanian mythology and folklore previously under explored in Western scholarship placing the source material within its historical context and drawing comparisons with European and Indo European culture and mythological tradition The author presents a detailed comparative study and argues that Romanian mythical motifs have roots in Indo European heritage by analyzing and comparing mythical motifs from the archaic cultures Greek Latin Celtic Sanskrit and Persian with written material and folkloric data that reflects the Indo European culture The book begins by outlining the history of the Getae Dacians beginning with Herodotus description of their customs and beliefs in the supreme god Zamolxis then moves to the Roman wars and the Romanization process before turning to recent debates in linguistics and genetics regarding the provenance of a shared language religion and culture in Europe The author then analyzes myth creation its relation to rites and its functions in society before examining specific examples of motifs and themes from Romanian folk tales and songs This book will be of interest to students and scholars of folklore studies comparative mythology linguistic anthropology and European culture **The Idea of Galicia** Larry Wolff, 2012-01-09 Galicia was created at the first partition of Poland in 1772 and disappeared in 1918 Yet in slightly over a century the idea of Galicia came to have meaning for both the peoples who lived there and the Habsburg government that ruled it Indeed its memory continues to exercise a powerful fascination for

those who live in its former territories and for the descendants of those who emigrated out of Galicia The idea of Galicia was largely produced by the cultures of two cities Lviv and Cracow Making use of travelers accounts newspaper reports and literary works Wolff engages such figures as Emperor Joseph II Metternich Leopold von Sacher Masoch Ivan Franko Stanisław Wyspiański Tadeusz Boy-Żeleński Isaac Babel Martin Buber and Bruno Schulz He shows the exceptional importance of provincial space as a site for the evolution of cultural meanings and identities and analyzes the province as the framework for non national and multi national understandings of empire in European history *Voice, Text, Hypertext* Raimonda Modiano, Leroy F. Searle, Peter L. Shillingsburg, 2016-06-01 *Voice Text Hypertext* illustrates brilliantly why interest in textual studies has grown so dramatically in recent years For the distinguished authors of these essays a text is more than a document or material object It is a cultural event a matrix of decisions an intricate cultural practice that may focus on religious traditions modern underground literary movements poetic invention or the irreducible complexity of cultural politics Drawing from classical Roman and Indian to modern European traditions the volume makes clear that to study a text is to study a culture It also demonstrates the essential importance of heightened textual awareness for contemporary cultural studies and critical theory and indeed for any discipline that studies human culture *The Foreign Policy of Serbia (1844-1867): Ilija Garašanin's Načertanije* Dušan T. Bataković, 2014 Contemporary analysis of Serbia's foreign policy in the middle of the nineteenth century has remained in a deep shadow of the *Načertanije* a document conceived in 1844 in Belgrade as a result of collaboration between Serbia's interior minister Ilija Garašanin and F. A. Zach the representative of the Polish political emigration from Paris led by Prince Adam Czartoryski in the capital of the autonomous Principality of Serbia Prince Czartoryski author of Councils for Serbia's foreign policy in 1843 considered Serbia the sole semi independent state among Slavs in South Eastern Europe a nucleus of a wider Serbia led South Slav state that might endorse an anti Russian and anti Austrian policy as a support for his wider plans regarding the restoration of independent Poland The over ambitious pan Slav project of F. Zach Serbia's Slavic Policy was eventually modified by Garašanin to a more realistic and attainable plan in accordance with Serbia's modest demographic and military potential limited international experience and still humble administrative capacities Planning the unification of the predominantly Serb inhabited lands under Ottoman rule was appropriately adapted to the geopolitical realities of 1844 The foreign policy of Serbia under Garašanin during the rule of the pro Austrian Prince Alexander Karađorđević and Garašanin's premiership under Russophile Prince Michael Obrenović was balancing between various political options that were dominating Europe and the Balkans between the 1848 Revolution and the Crimean War and the first Balkan Alliance Garašanin was continuously prudent and bold in pursuing realistic political ambitions regarding large scale anti Ottoman activities by building a network of confidants and agents throughout Turkey in Europe that was to form a joint insurrection against the Ottoman rule During its last phase Garašanin's foreign policy gradually evolved into the direction of closer Yugoslav and Balkan cooperation Back cover *The History of Serbia* John K.
