**Songs of the Troubadours and Trouveres** Samuel N. Rosenberg, Margaret Switten, Gerard Le Vot, 2013-09-05 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company      **Songs of the Troubadours and Trouvères** Peter Becker, Robert Eisenstein, 1997      **Medieval Woman's Song** Anne L. Klinck, Ann Marie Rasmussen, 2015-08-06 The number of surviving medieval secular poems attributed to named female authors is small some of the best known being those of the trobairitz the female troubadours of southern France However there is a large body of poetry that constructs a particular textual femininity through the use of the female voice Some of these poems are by men and a few by women including the trobairitz many are anonymous and often the gender of the poet is unresolvable A woman's song in this sense can be defined as a female voice poem on the subject of love typically characterized by simple language sexual candor and apparent artlessness The chapters in Medieval Woman's Song bring together scholars in a range of disciplines to examine how both men and women contributed to this art form Without eschewing consideration of authorship the collection deliberately overturns the long standing scholarly practice of treating as separate and distinct entities female voice lyrics composed by men and those composed by women What is at stake here is less the voice of women themselves than its cultural and generic construction      *Female-Voice Song and Women's Musical Agency in the Middle Ages*, 2022-08-22 This collection of seventeen essays newly identifies contributions to musical culture made by women before 1500 across Europe You will learn about repertoire from such diverse locations as Iceland Spain and Italy and encounter examples of musicianship from the gender fluid professional musicians at the Islamicate courts of Syria to the nuns of Barking Abbey in England The book shows that women drove musical patronage dissemination composition and performance including within secular and ecclesiastical contexts and also reflects on the reception of medieval women's musical agency by both medieval poets and by modern recording artists Contributors are David Catalunya Lisa Colton Helen Dell Annemari Ferreira Rachel Golden Gillian L Gower Anna Kathryn Grau Carissa M Harris Louise McInnes Lisa Nielson Lauren Purcell Joiner Megan Quinlan Leah Stuttard Claire Taylor Jones Melissa Tu Angelica Vomera and Anne Bagnall Yardley      Courts of Love, Castles of Hate Aubrey Burl, 2011-11-08 The figure of the Troubadour combines the ideals of knighthood with the inspiration of the poet and musician and created a cultural explosion which influenced the whole course of Western art and civilisation Burl traces the story from the birth of the first Troubadour in 1071 to the execution of the last Cathar Good Man in 1231 and the close of the distinctive southern French culture that had given rise to it The tale incorporates the Crusades to the Holy Lands and the Albigensian crusades through the Languedoc and the regular incursions from the English In telling his story of the Troubadours and their song he brings to life the world of medieval Languedoc The author is acknowledged as an authority on the Troubadours one of the most evocative subjects in history      Medieval Sex Lives Elizabeth Eva Leach, 2023-12-15 Medieval Sex Lives examines courtly song as a complex cultural product and social force in the early fourteenth century

exploring how it illuminates the relationship between artistic production and the everyday lives of the elites for whom this music and poetry was composed and performed In a focused analysis of the Oxford Bodleian Library's Douce 308 manuscript a fourteenth century compilation that includes over five hundred Old French lyrics composed over two centuries alongside a narrative account of elaborate courtly festivities centered on a week long tournament Elizabeth Eva Leach explores two distinct but related lines of inquiry first why the lyric tradition of courtly love had such a long and successful history in Western European culture and second why the songs in the Bodleian manuscript would have been so important to the book's compilers owners and readers The manuscript's lack of musical notation and authorial attributions make it unusual among Old French songbooks its arrangement of the lyrics by genre invites inquiry into the relationship between this long musical tradition and the emotional and sexual lives of its readers Combining an original account of the manuscript's contents and their likely social milieu with in depth musical and poetic analyses Leach proposes that lyrics whether read or heard aloud provided a fertile means of propagating and enabling various sexual scripts in the Middle Ages Drawing on musicology literary history and the sociology and psychology of sexuality *Medieval Sex Lives* presents a provocative hypothesis about the power of courtly songs to model inspire and support sexual behaviors and fantasies

**Mapping Medieval Identities in Occitanian Crusade Song** Rachel May Golden, 2020-09-23

In medieval Occitania southern France troubadours and monastic creators fostered a vibrant musical culture In response to the early Crusade campaigns of the twelfth and thirteenth centuries Christians of the region turned to producing monophonic poetic song encompassing both secular and sacred genres These works assert shifting regional identities and worldviews exploring devotional practices and religious beliefs overlaid with notions of contemporaneous geopolitics and secular intellectual interests Mapping Medieval Identities in Occitanian Crusade Song demonstrates the profound impact the Crusades had on two seemingly discrete musical poetic practices the Latin sacred

Aquitanian versus associated with Christian devotion and the vernacular troubadour lyric associated with courtly love Rachel May Golden investigates how such Crusade songs distinctively arose out of their geographic environment uncovering intersections between the beginning of Holy War and the emergence of new styles of poetic musical composition She brings together sacred and secular genres of the region to reveal the inventiveness of new composition and the imaginative scope of the Crusades within medieval culture These songs reflect both the outer world and interior lives and often their conjunction giving shape and expression to concerns with the Occitanian homeland spatial aspects of the Crusades and newly emerging positions within socio political history Drawing on approaches from cultural geography literary studies and musicology Mapping Medieval Identities in Occitanian Crusade Song provides a timely perspective on geopolitical and cultural interactions between nations

*The Crisis of the Twelfth Century* Thomas N. Bisson, 2015-09-22 Medieval civilization came of age in thunderous events like the Norman Conquest and the First Crusade Power fell into the hands of men who imposed coercive new lordships in quest of nobility Rethinking a familiar history Thomas Bisson explores the circumstances that impelled knights emperors nobles and churchmen to infuse lordship with social purpose Bisson traces the origins of European government to a crisis of lordship and its resolution King John of England was only the latest and most conspicuous in a gallery of bad lords who dominated the populace instead of ruling it Yet it was not so much the oppressed people as their tormentors who were in crisis The Crisis of the Twelfth Century suggests what these violent people and the outcries they provoked contributed to the making of governments in kingdoms principalities and towns

Polyphony and the Modern Jonathan Fruoco, 2021-05-10 Polyphony and the Modern asks one fundamental question what does it mean to be modern in one's own time To answer that question this volume focuses on polyphony as an index of modernity In The Principle of Hope Ernst Bloch showed that each moment in time is potentially fractured people living in the same country can effectively live in different centuries some making their alliances with the past and others betting on the future but all of them at least technically enclosed in the temporal moment But can a claim of modernity also mean something more ambitious Can an artist by accident or design escape the limits of his or her own time and somehow precociously embody the outlook of a subsequent age This book sees polyphony as a bridge providing a terminology and a stylistic practice by which the period barrier between Medieval and Early Modern can be breached Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <https://www.taylorfrancis.com/books/edit/10.4324/9781003129837>

Marcabru Marcabrun, Simon Gaunt, Ruth Harvey, Linda M. Paterson, 2000 One of the earliest troubadours Marcabru was a remarkable artist and entertainer and a figure of crucial importance to the development of the European courtly lyric His blistering attacks on contemporary court society reveal an intellectual insider's view of the clash between clerical morality and the emerging secular ethics of love and courtesy His fervent often acerbic engagement with contemporary events also provides a unique southern perspective on political upheavals and crusading movements in twelfth century Occitania and northern Spain This new critical edition the first for nearly 100 years makes his complete corpus accessible to a wide readership supplying translations full critical apparatus and copious textual notes with a substantial glossary of Marcabru's extraordinarily inventive vocabulary The introduction supplies historical information discussion of the poet's language and an analysis of the manuscript transmission It also raises fresh issues of troubadour versification techniques in this formative period and engages in a new way with the current debate about editorial methodology and medieval textual criticism Leaflet blurb see AN
