Music, Paul Akers Richardson, 2008. Baptists have a long and rich heritage of congregational song. The hymns Baptists have sung and the books from which they have sung them have been shaping forces for Baptist theology, worship and piety. Baptist authors and composers have provided songs that have made an impact not only among Baptists in America but also across denominational and geographic lines. Congregational singing continues to be a key component of Baptist worship in the twenty-first century. Beginning with an overview of the British background, this book is a survey of the history of Baptist hymnody in America from Baptist beginnings in the New World to the present. Its intent is to help the reader better understand the background against which current Baptist congregational song practices operate. Unlike earlier writings on the subject, this book provides both comprehensive coverage and a continuous narrative. It gives thorough attention to the major Baptist bodies in America as well as calling attention to the contributions of significant smaller groups. The British Baptist background is dealt with in an introductory section. The book also includes many texts and tunes as illustrations of the topics being discussed and focuses on some of the contributions of Baptist authors and composers to the repertory of congregational song. Book jacket: *The Musical Times and Singing-class Circular*, 1887. **Before There Was a Bible** Lee

Martin McDonald, 2023-01-26. How did authority function before the Bible as we know it emerged? Lee Martin McDonald examines the authorities that existed from the Church's beginning, the appeal to the texts containing the words of Jesus and that would become the New Testament, the not yet finalized Hebrew Scriptures referred to mostly in Greek, and the apostolic leadership of the churches. McDonald traces several sacred core traditions that broadly identified the essence of Christianity before there was a Bible, summarized in early creeds, hymns and spiritual songs, baptismal and Eucharistic affirmations and in lectionaries and catalogues from the fourth century and following. McDonald shows how those traditions were included in the early Christian writings later recognized as the New Testament. He also shows how Christians were never fully agreed on the scope of their Old Testament canon, Hebrew scriptures, and that it took centuries before there was universal acceptance of all

of the books now included in the Christian bible Further McDonald shows that whilst writings such as the canonical gospels were read as authoritative texts likely from their beginning they were not yet called or cited as scripture What was cited in an authoritative manner were the words of Jesus in those texts alongside the multiple affirmations and creeds that were circulated in the early Church and formed its key authorities and core sacred traditions *Catechizing Culture* Andrew Orta,2004 A groundbreaking study of the contemporary encounter between Catholic missionaries and Aymara Indians in highland Bolivia this book is the first ethnography to focus both on the evangelizers and the evangelized Elucidating the workings of that original global institution the Catholic Church Andrew Orta explores the pastoral shift away from liberation theology that dominated Latin American missionization up until the mid 1980s to the recent theology of inculturation
