topics *South of Tradition* focuses not only on well known writers such as Zora Neale Hurston Ralph Ellison James Baldwin and Richard Wright but also on up and coming writers such as Randall Kenan and less known writers such as Brent Wade and Henry Dumas Harris Lopez addresses themes of sexual and racial identity reconceptualizations of and transcendence of Christianity analyses of African American folk and cultural traditions and issues of racial justice Many of her subjects argue that geography shapes identity whether that geography is the European territory many blacks escaped to from the oppressive South or the South itself where generations of African Americans have had to come to grips with their relationship to the land and its history For Harris Lopez south of tradition refers both to geography and to readings of texts that are not in keeping with expected responses to the works She explains her point of departure for the essays as a slant an angle or a jolt below the line of what would be considered the norm for usual responses to African American literature The scope of Harris Lopez s work is tremendous From her coverage of noncanonical writers to her analysis of humor in the best selling *The Color Purple* she provides essential material that should inform all future readings of African American literature
