Schreck,Maureen Hoebener,1998 *Sophie Hits Six* Dick King-Smith,1993 *Speech Recognition in Adverse Conditions* Sven Mattys,Ann Bradlow,Matthew Davis,Sophie Scott,2013-12-19 Speech recognition in adverse conditions has been a familiar area of research in computer science engineering and hearing sciences for several decades In contrast most psycholinguistic theories of speech recognition are built upon evidence gathered from tasks performed by healthy listeners

on carefully recorded speech in a quiet environment and under conditions of undivided attention Building upon the momentum initiated by the Psycholinguistic Approaches to Speech Recognition in Adverse Conditions workshop held in Bristol UK in 2010 the aim of this volume is to promote a multi disciplinary yet unified approach to the perceptual cognitive and neuro physiological mechanisms underpinning the recognition of degraded speech variable speech speech experienced under cognitive load and speech experienced by theoretically relevant populations This collection opens with a review of the literature and a formal classification of adverse conditions The research articles then highlight those adverse conditions with the greatest potential for constraining theory showing that some speech phenomena often believed to be immutable can be affected by noise surface variations or attentional set in ways that will force researchers to rethink their theory This volume is essential for those interested in speech recognition outside laboratory constraints **Their Stars Shone Brightly** Larry O. Goldbeck, MD, 2016-08-27 The passage of time inevitably causes outstanding achievements and important names to be obscured or lost However this does not reduce their inherent value Over the course of many decades the author has derived countless hours of entertainment and education through the four major American entertainment media radio theater movies and television He feels indebted to the exceptionally talented performers of the twentieth century who have now passed into history Recently the author has attempted to locate a book describing all four of the entertainment media and its great performers but none is to be found Many books are available about only one or two media The author hopes that this book will spark the readers interest in the great stars of the past and propagate this forward particularly to the younger generation All the data in this book is publicly available piecemeal but this book consolidates and makes it more pleasurable and easier for the reader to acquire the fun and sometimes trivial information **The British National Bibliography** Arthur James Wells, 1993 *Phantom Lady* Christina Lane, 2020-02-04 Winner of the Mystery Writers of America s 2021 Edgar Allan Poe Award for Best Critical Biographical In 1933 Joan Harrison was a twenty six year old former salesgirl with a dream of escaping both her stodgy London suburb and the dreadful prospect of settling down with one of the local boys A few short years later she was Alfred Hitchcock s confidante and one of the Oscar nominated screenwriters of his first American film Rebecca Harrison had quickly grown from being the worst secretary Hitchcock ever had to one of his closest collaborators critically shaping his brand as the Master of Suspense Harrison went on to produce numerous Hollywood features before becoming a television pioneer as the producer of Alfred Hitchcock Presents A respected powerhouse she acquired a singular reputation for running amazingly smooth productions and defying anyone who posed an obstacle She built most of her films and series from the ground up She waged rough and tumble battles against executives and censors and even helped to break the Hollywood blacklist She teamed up with many of the most respected well known directors writers and actors of the twentieth century And she did it all on her own terms Author Christina Lane shows how this stylish stunning woman became Hollywood s most powerful female writer producer one whom history has since overlooked **The**
