Witchcraft Accusations and Persecutions as a Mechanism for the Marginalisation of Women Samantha Spence, 2017-08-21 This book draws on feminist commentary from the disciplines of anthropology history law politics and sociology in order to deal with the phenomenon of modern day witchcraft It focuses on the re emergence of witchcraft beliefs in contemporary society suggesting that witchcraft accusations and persecution are being used as a marginalisation mechanism of women The re emergence of witchcraft beliefs in contemporary society and the prevalence of the violence associated with such beliefs has received little attention within academic literature yet witchcraft related violence against women is progressively becoming one of the most pervasive forms of violence facing women today This book addresses this gap in the literature discussing the return of witchcraft beliefs to contemporary society whilst assessing the effectiveness of international human rights law in protecting women from witchcraft accusations and persecution

Witchcraft, Superstition and Rationality Gireesh Kumar J, Naveen Suresh, Samantha Spence, 2025-08-08 This book is a critical exploration of the enduring impact of superstition and witchcraft related violence in contemporary India This interdisciplinary volume interrogates the intersection of gender caste and power in the persistence of witchcraft accusations ritual violence and the weaponization of superstition Through historical analysis legal critique and ethnographic insights the book sheds light on the systemic marginalization of women and marginalized communities revealing how superstition is both a tool of oppression and a mechanism of social control With contributions from leading scholars it examines the efficacy of anti superstition laws the role of grassroots activism and the urgent need for cultural transformation Grounded in rigorous research yet accessible in its approach this book is essential reading for academics policymakers and activists committed to dismantling harmful traditions and advancing human rights in India s evolving socio legal landscape

Gender Violence & Human Rights Aletta Biersack, Margaret Jolly, Martha Macintyre, 2016-12-14 The postcolonial states of Fiji Papua New Guinea and Vanuatu operate today in a global arena in which human rights are widely accepted As ratifiers of UN treaties such as the Convention on the Elimination of All Forms of Discrimination against Women and the Convention on the Rights of the Child these Pacific Island countries have committed to promoting women s and girls rights including the right to a life free of violence Yet local national and regional gender values are not always consistent with the principles of gender equality and women s rights that undergird these globalising conventions This volume critically interrogates the relation between gender violence and human rights as these three

countries and their communities and citizens engage with appropriate modify and at times resist human rights principles and their implications for gender violence Grounded in extensive anthropological historical and legal research the volume should prove a crucial resource for the many scholars policymakers and activists who are concerned about the urgent and ubiquitous problem of gender violence in the western Pacific This is an important and timely collection that is central to the major and contentious issues in the contemporary Pacific of gender violence and human rights It builds upon existing literature but the contributors to this volume interrogate the connection between these two areas deeply and more critically This book should and must reach a broad audience Jacqui Leckie Associate Professor Anthropology and Archaeology University of Otago The volume addresses the tensions between human and cultural individual and collective rights as played out in the domain of gender Gender is a perfect lens for exploring these tensions because cultural rights are often claimed in defence of gender oppression and because women often have imposed upon them the burden of representing cultural traditions in attire comportment restraint or putatively cultural conservatism And Melanesia is a perfect place to consider these gendered issues because of the long history of ethnocentric representations of the region because of the extent to which these are played out between states and local cultures and because of the efforts of the vibrant women s movements in the region to develop locally workable responses to the problems of gender violence in these communities Christine Dureau Senior Lecturer Anthropology University of Auckland

Witchcraft in Post-colonial Africa Khaukanani Mavhungu,2025-04-18 This is a comparative ethnographic study of witchcraft and associated violence between the kingdoms of Kom and Venda in Cameroon and South Africa respectively The book shows why despite its prevalence in both societies witchcraft does not lead to open violence in Kom while such large scale violence is commonplace in Venda It reveals that this difference can be explained by factors such as the variations in local ideas on witches differences in the role of traditional authorities and various state interventions on witchcraft matters The book demonstrates through a rich

collection of detailed cases that contrary to anthropological theory that views witchcraft as a mechanism for the expression and resolution of social tensions and conflicts witchcraft may at times become a disturbance of amicable social relations Witchcraft accusations may occur in a context where strained social relations have not preceded them The knowledge and experience that people have about witchcraft is sufficient to trigger an accusation and a violent reaction Different forms of witchcraft account for variations in witchcraft attributions and accusations This comparison provides a valuable contribution to ongoing witchcraft policy discourse amid widespread citizen anxiety over witchcraft and the increasing call on the post colonial state to intervene and protect its citizens against occult aggression **A Witch's Hand** William E.

Inventing God's Law David P. Wright,2009-09-03 In this book David Wright will draw on three of his influential published essays to create a boldly revisionist account of the origin of the so called Covenant Collection of the Torah Exodus 20 23 23 19 He argues that this body of law depends mainly on the Laws of Hammurabi and to some extent on other cuneiform law collections that it is chiefly the work of a single author that it is to a significant degree the result of intellectual interaction with the author s sources rather than a collection of Israelite Judean legal traditions and that it may have had a politically
