Martin,2024-04-23

This book examines personal and professional understandings of religion in psychotherapy and advocates for integrity competency and cultural pluralism in clinical practice A major feature of this book is that it confirms the massive proliferation of religion oriented approaches to counseling and therapy in recent years It attributes this rise to opportunism and exaggerated individualism among therapists and to the frequent failures of professional associations clinical preparation programs and other influences In response to these influences it identifies the need for guiding principles for integrating religion into therapy discusses the religious issues that clients bring to therapy and advocates for major changes in clinical practice with emphasis on integrity and competence Building on a large volume of research and using evidence based conclusions it clarifies how these two major features of contemporary life can be integrated with integrity and competence The author maintains that religion should be a feature of the practice of counseling and therapy so long as it addresses the clinically relevant needs of clients However it also explores how the religion of counselors and therapists often expresses the needs of counselors and therapists instead of addressing the needs of their clients In the context of these questions and discussion of contentious challenges this book provides guidelines for relating religion with clinical practice and recommends needed actions by clinical preparation programs professional associations individual therapists state legislatures licensing boards social service agencies and corporations All of this stands on the conspicuous need for professional accountability in the delivery of mental health care *An*

Introduction to Marriage and Family Therapy Lorna L. Hecker,Joseph L. Wetchler,2003 The editors have compiled insight and analysis from 20 experts in the theoretical and practice areas of family therapy Topics covered include couples therapy communication training marital enrichment premarital counselling substance abuse divorce gender and culture family violence and sexual dysfunctions **Therapy Thieves** Francis A. Martin,2020-03-13 Why are we practicing counselors and psychotherapists committed to failure This is the question that has haunted Dr Francis Martin as he has cataloged well over 20 000 distinct psychotherapy approaches advertised on the websites of licensed mental health professionals No doubt some of these are harmful most of them ineffective and many simply made up but the sheer volume of such techniques and practices advertised by licensed professionals holding advanced degrees whose services are billed to clients and insurance companies calls the credibility of the entire mental health profession into question Based on significant original research that joins research from others this book describes a near universal crisis in mental health care and recommends ways to rescue the field from itself The crisis is caused by declining competence among counselors and psychotherapists who have failed to

regulate themselves and who therefore deliver inadequate if not harmful services The book calls for major specific and urgently needed reforms

Buddha's discourses the epic Mahabharata and the writings of Candrakirti whose work was later to provide the foundation for Tibetan Buddhism Ganeri argues that many Western theories of selfhood are not only present in but are developed to high degree of sophistication in these writings and that there are other ideas about the self found in the work of classical Indian thinkers which present day analytic philosophers have not yet begun to explore Scholars and students of philosophy and religious studies particularly those with an interest in Indian and Western conceptions of the self will find this book fascinating reading
