The Soul in Cyberspace Doug Groothuis,1999-03-08 While most Christians are content with a superficial and pragmatic assessment of the new information technologies Douglas Groothuis probes more deeply He wisely recognizes the symbolic power of technology machines don't just do things they shape us by equipping our imaginations and language with powerful new images metaphors and assumptions Groothuis has done a great service in alerting us to the temptations that will challenge the twenty first century church and in providing the tools to discern what is real what is true and what is to be treasured Ken Myers *Body, Soul and Cyberspace in Contemporary Science Fiction Cinema* S. book cyberspace has in recent years become a repository for immense spiritual yearning 37 illustrations The Perfect 10 Michael G. Moriarty,1999 Most of us realize that traffic laws exist to preserve our lives not cramp them Yet when it comes to moral laws 66 percent of Americans believe there are no absolutes Is it any wonder then that the highway of our postmodern culture is strewn with wrecks Broken marriages overcrowded prisons murder in the classrooms babies having babies they re what happen when we confuse liberty with ignoring the rules of the road That's why Michael Moriarty is convinced that the Ten Commandments really are The Perfect 10 Behind them lie God's concern for our welfare and his understanding of the indelible truths that govern our world our relationships and our inner being One by one Moriarty reveals the Ten Commandments as the keys to wholeness and freedom and shows their far reaching application for us today For the Perfect 10 remain the ideal ethical compass They help us align our lives with the character of God and to a world hurtling blindly down the dead end road or moral relativism they point the way back to sanity restoration and life The Spiritual Universe

Monstrous Liminality Robert G. Beghetto,2022-01-24 This book examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other With the advent of modernity the stranger the monster and the spectre became interconnected Haunting the edges of reason while also being absorbed into normal society all three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed Yet these figures can also become re appropriated as positive symbols able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian and the conflicts that emerged as a result of secularized modernity s denial of its own hybridization This approach to modern literature shows how the modern stranger a figure that is both paradoxically immersed and removed from society deals with the dangers of failing to be re assimilated into mainstream society and is caught in a fixed or permanent state of liminality a state that can ultimately lead to boredom

alienation nihilism and failure These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints enabling new and fresh perspectives suspended between imagination and reality past and future nature and artificial In many ways the modern stranger as a figure of literature and the cultural imagination has become more complicated and challenging in the post modern contemporary age both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society However while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality The intention of Monstrous Liminality is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself This space has consequently altered the makeup of the stranger from something external into a figure far more liminal which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any

Soul-Searching Luke Jeffrey Janssen, 2019-08-06 There are well over one hundred different views of the nature of human existence though the Bible may rule out many of these there still remains a large number that are all compatible with Scripture The Bible never explicitly defines the nature of the soul or spirit which is actually quite puzzling or even ironic given that one major aim of Scripture is spiritual development and ultimate questions about the soul In fact Judeo Christian thinking on those questions has been evolving over the course of four thousand years This book documents that evolution as a man named Abram left Babylon four thousand years ago journeying through the lands and the philosophies of civilizations preceding him by many more thousands of years while he and his descendants both physical and spiritual unpacked their understanding of our inner being the human soul and the afterlife That journey is followed to the present day and examines how a critically thinking Christian can embrace a theology of the human soul that is fully compatible with modern scientific findings including explanations for consciousness mind and

Soul Stories Prof. Anne E. Streaty Wimberly, 2010-09-01 In this revision of *Soul Stories*, Dr Wimberly moves even more in the direction of Christian Education with African American families. Soul stories link persons' everyday life with the Christian Scriptures. The soul stories in this revised volume take on a cross-generational orientation with emphasis on linking stories of family identities, events, relationships and story plot with Bible stories and exemplary Christian faith stories found in the African Diaspora. This orientation builds on an awareness of the continued fragmentation of Black family life and the disconnect between generations on one hand, yet on the other hand, the profound yearning of Black people for a common family history. The goal of Dr Wimberly's model is to enliven the values associated with the image of village in order to empower and equip African Americans today.

The Soul Online Graham Joseph Hill, Desiree Geldenhuys, 2021-12-30 Pandemics, conflicts and crises have increased suffering, death and loss worldwide. The growing phenomenon of online interactions by the bereaved with the online presence of their deceased loved ones has recently come to the attention of caring professionals. Many questions emerge: How do we understand and respond to digital memorialization? What do we make of digital identities and continuing bonds? How can we engage with digital bereavement communities? What is the future of digital death and bereavement rituals and practices? How have forms of technospirituality and cybergnosticism emerged? How do counselors and carers respond to advances in the digital afterlife? Graham Joseph Hill and Desiree Geldenhuys examine existing therapeutic responses to death and bereavement practices and evaluate the efficacy in meeting the needs of mourners in a digital context. Geldenhuys and Hill explore the rising interest in spirituality and the phenomenon of technospirituality, including interest in the afterlife. The authors outline new death and bereavement practices in the digital public sphere. Hill and Geldenhuys offer ways that therapeutic and care practitioners can meet these needs. Finally, the authors develop new proposals for counseling pastoral and spiritual carers to help them address the needs
