Living the Golden Path Ruth Ryden, 1994 Spiritual mastery encompasses many different means to assimilate and be assimilated by the wisdom feelings flow warmth function and application of all beings in your world that you will actually contact in some way A lot of spiritual mastery has been covered in different bits and pieces throughout all the books we've done My approach to spiritual mastery though will be as grounded as possible in things that

people on Earth can use but it won't include the broad spectrum of spiritual mastery like levitation and invisibility. I'll only teach what I think you can actually use. Very few people need levitation. You might find it amusing but the problem is eventually you fall asleep, float up into space and suffocate. What good is that? I'm trying to teach you things that you can actually use and benefit from. When I talk about my life, those are the lessons in spiritual mastery aspects of my life and the life of any physical person. And I will discuss how I do it how.

The Wheels of Soul in Education, 2010-01-01. This book boldly re-frames the basis of our collective approach to education. It presents a compelling argument for an educational world view that perceives self, society and the universe as an undivided whole, a holarchy of wholes within wholes, wheels within wheels. Soul in education is an international movement rooted in the holistic education paradigm. It challenges us individually and collectively to re-ensoul our educational thinking and practice from the inside out. At the heart of this educational world view is an appreciation of the spiritual presence of the soul as the source self that exists beyond the surface appearance of personality and infuses an individual with positive transformative qualities that energise lifelong learning and creative living. The essays in this book describe practices that attend to the cultivation of the soul in a range of educational contexts. Written by holistic educators from around the globe, they build a picture of education that develops a multidimensional understanding of self and other. Through creativity, paradox and mystery, teachers invite the emergence of soul qualities in themselves and learners, qualities such as joy, justice, caring, ethics, compassion and tolerance, providing the vital basis for the creation of a more equitable social reality in the 21st century and beyond.

Radical Wisdom. Beverly Lanzetta. Lanzetta illuminates the transformative potential of the classical tradition of women mystics, especially in light of contemporary violence against women around the world. Focusing on the contemplative process as women's journey from oppression to liberation, Lanzetta draws especially on the mysticism of Julian of Norwich and Teresa of Avila. She lays out the contemplative techniques used by mystics to achieve their highest spiritual potential and also investigates how unjust social and political conditions afflict women's souls. Lanzetta identifies a specific historical female mystical path, the *via feminina*, and draws contemporary conclusions for how women might understand their bodies, their rights and their ethics.

You Were Born Again to Be Together. Dick Sutphen, 2021-10-26. There is absolutely no doubt in my mind that romantic partners together in this lifetime have been together before. After being hypnotized and shown his own past lives, Dick Sutphen went on to become a practitioner of hypnosis and past life regressions. Over the years he worked with many people and discovered the importance of karma that we have lessons to learn and if we do not do so in one lifetime we will encounter them in another lifetime. Other people are instrumental in our learning these karmic lessons and we can be tied to certain individuals in life after life. In this book, Sutphen shares regressions with several clients and includes transcripts of their sessions. In hearing their stories, we discover what these people came to understand about the challenges in their

present lives after they looked to the past Originally written in 1976 *You Were Born Again to Be Together* remains a useful primer in shining a light on metaphysics and the amazing power of the human spirit Discover the classic guide to past life regression that reveals how souls are reunited across the ages

Consider What the Angels Say George DeVangelos,2016-08-31 Our world now and throughout history has had conflicting accounts of the nature of God and man's relationship to this cosmic deity These conflicts have wrecked havoc within the societies of humanity to dangerous levels Mankind has relied upon his sacred and canonized scriptures to provide doctrinal absolutes for his religions but these absolutes differ and therefore cannot possibly all be correct at least in specific contexts However there exist a very

mysterious book circulating worldwide that does have specific detailed and consistent answers to all of our questions The origin of this book is steeped in mystery and no human author has claimed ownership to its teachings which cover 2097 pages of intensive reading and exhaustive information This book is known as the Urantia Book and has been placed in the public domain The Urantia Book takes us from the conceptual locations within our segregated religious heritage and correctively re calibrates our various belief systems which have been unavoidably limited and distorted by our world views throughout human history After its conceptual enhancements and adjustments the Urantia Book enlarges such informational details into an elevation of more exact universal levels of perception as an advancement of cosmic truth Consider What the Angels Say takes this expansive and intricately complicated book and presents a timesaving presentation of its teachings and gently correlates it with Christian doctrines and other religions as well as human philosophy and knowledge In this book the following questions will be answered What exactly is God and how does this phenomenon relate to infinite reality the time and space cosmos other spiritual beings and our world Exactly what is the Godhead Trinity and why is it a necessary foundation for the existence of universal reality What are angels and spiritual principalities What are their levels and types and how do they interface and interact between supernatural and human situations How does the historical Jesus Christ fit into the spiritual dimensions of reality How is he related to the one eternal God and how is Jesus an integral part of our soul salvation How was man physically created and what accounts for the variances in human biological races and how does this correlate with the theory of evolution What is the nature of the human soul and how is it translated into the eternal spiritual realities and how does it exist beyond death and what is its destiny How did mankind come to develop and organize his cultures and what part did supernatural spiritual beings play in the formulations of man s religious doctrines Why has there been so much tragedy hardship war disease and social discord throughout our history What is the nature of sin and why does evil even exist Something is not right what went wrong In all of the versions of religious theologies and doctrines worldwide no one book explains the details of these universal mysteries as completely and systematically as the Urantia Book it is truly a gift from the angels Consider What the Angels Say is a concentrated effort forged from the heartfelt love and concern for humanity to introduce this majestic angelic book to all who are able to receive and benefit form its supernatural information
