Sound Not Silence

Wolfgang Guggemos

Sound Not Silence:

Silence, Sounds, Music Florian Freitag, Laura Katharina Mücke, Peter Niedermüller, 2025-02-20 This book examines the intersections of silence with immersive arts and experiences Silence and immersion may seem antithetical while immersion is supposedly induced by acoustic and other stimuli silence is commonly understood as the absence or opposite of sound Since the eighteenth century however silence has been established as a multifarious and polyvalent cultural concept Immersion in turn though often used as a simple all inclusive term has old and complex ontological and epistemological roots Organized into three parts this book brings critical historical and theoretical debates on silence into dialogue with different notions of immersion The 16 theoretical articles and case studies engage in discovering and questioning the continued prominence of both concepts in aesthetics culture and media Covering music film digital visual and performance art theater video games and theme parks the chapters discuss both highly canonical and rarely examined artifacts Written by scholars from Germany Austria France and Switzerland the interdisciplinary collection includes perspectives from musicology film studies cultural and media studies gender studies art history and philosophy Silence Sounds Music addresses both an academic and a wider audience It will be of interest to anyone interested in music sound immersive experiences the so called experience economy and contemporary art and culture

Sound Affects Sharon Jane Mee, Luke Robinson, 2022-12-15 Sound Affects A User's Guide is a collection of sonically charged concepts ranging from those felt heard and repeated silence the oriental riff shuffle to the vocal whispers sing the disembodied voice to sounds at the threshold tiny thump buzz to sounds beyond the limits of audibility inaudible tremors distortion sub bass Sound Affects invites the reader

to reflect on the ways that sounds produce affects and the ways that affects can operate as sound Each of the entries develops a particular perspective on sound and affect through a close analysis of audiovisual and or sonic objects The objects chosen not only illustrate the concept in question but also demonstrate how the object encourages us to rethink the relationships between sounds and affects Influenced by the sound theory of Eugenie Brinkema 2011 the concepts of Sound Affects plot the shift in volume from silence that opens up a space to be heard to the audibly near from the audibly near to sounds beyond the limits of audibility Sound Affects is an intellectual adventure for those who theorize and listen The book can also be enjoyed as a narrative of sounds its absences and its shifting intensities Listening Deafly and the Rhetoric of Sound Sarah Mayberry Scott,2023-10-15 In this book Sarah Mayberry Scott bridges the seemingly insurmountable divide between sound studies and deaf studies by considering the persuasive nature of sound at the intersection of sound rhetoric and deafness Using three contemporary films as critical touchstones CODA 2021 A Quiet Place 2018 and Sound of Metal 2019 Scott investigates how the history and values of Deaf culture provide opportunities for expanding the concepts of voice silence and listening to include a plurality of embodied experiences Through utilizing an innovative rhetorical approach of listening deafly to sound the author asserts that it is possible to understand voice without orality to experience sound without hearing and to listen in multi modal ways to show that all bodies are sound bodies Scholars of deaf studies sound studies and rhetoric will find this book of particular interest **Sound: A Reader in Theatre Practice** Ross Brown,2009-11-27 Brown explores relationships between sound and theatre focusing on sound s interdependence and interaction with human performance and drama Suggesting different ways in which sound may be interpreted to create meaning it includes key writings on sound design as well as perspectives from beyond the discipline Meter as Rhythm Christopher Hasty,2020-04-01 A seminal work in music theory for over two decades Christopher Hasty s Meter as Rhythm is foundational to new subfields in ethnomusicology and music cognition and recently being investigated in non music fields from literary studies and poetics to physics and biology This Twentieth Anniversary Edition makes the work readily available across this wide spectrum of scholarship **"Silence, Music, Silent Music "** Nicky Losseff,2017-07-05 The contributions in this volume focus on the ways in which silence and music relate contemplate each other and provide new avenues for addressing and gaining understanding of various realms of human endeavour The book maps out this little explored aspect of the sonic arena with the intention of defining the breadth of scope and to introduce interdisciplinary paths of exploration as a way forward for future discourse Topics addressed include the idea of silent music in the work of English philosopher Peter Sterry and Spanish Jesuit St John of the Cross the apparently paradoxical contemplation of silence through the medium of music by Messiaen and the relationship between silence and faith the aesthetics of Susan Sontag applied to Cage s idea of silence silence as a different means of understanding musical texture ways of thinking about silences in music produced during therapy sessions as a form of communication music and silence in film including the idea that music can function as silence

and the function of silence in early chant Perhaps the most all pervasive theme of the book is that of silence and nothingness music and spirituality a theme that has appeared in writings on John Cage but not in a broader sense in scholarly writing The book reveals that unexpected concepts and ways of thinking emerge from looking at sound in relation to its antithesis encompassing not just Western art traditions but the relationship between music silence the human psyche and sociological trends ultimately providing deeper understanding of the elemental places both music and silence hold within world philosophies and fundamental states of being Silence Music Silent Music will appeal to those working in the fields of musicology psychology of religion gender studies aesthetics and philosophy Words and Music Deborah Fillerup Weigel, 2010 Introduction Musical contrast in Albert Camus L tranger Musical counterpoint in Albert Camus L tranger Musical qualities in Samuel Beckett s *En attendant Godot* Silence in John Cage and Samuel Beckett 4 33 and *En attendant Godot* John Cage s collaboration of words and music in the song books The edited performance Glenn Gould s solitude trilogy Musical and verbal counterpoint in two short films about Glenn Gould *Gallery Sound* Caleb Kelly, 2017-08-24 Sound is an integral part of contemporary art Once understood to be a marginal practice increasingly we encounter sound in art exhibitions through an array of sound making works in various art forms at times played to very high audio levels However works of art are far from the only thing one might hear music performances floor talks exhibition openings and the noisy background sounds that emanate from the gallery caf fill contemporary exhibition environments Far from being hallowed spaces of quiet reflection what this means is that galleries have swiftly become very noisy places As such a straightforward consideration of artworks alone can then no longer account for our experiences of art galleries and museums To date there has been minimal scholarship directed towards the intricacies of our experiences of sound that occur within the bounds of this purportedly visual art space Kelly addresses this gap in knowledge through the examination of historical and contemporary sound in gallery environments broadening our understanding of artists who work with sound the institutions that exhibit these works and the audiences that visit them *Gallery Sound* argues for the importance of all of the sounds to be heard within the walls of art spaces and in doing so listens not only to the deliberate inclusion of sound within the art gallery in the form of artworks performances and music but also to its incidental sounds such as their ambient sounds and the noise generated by audiences More than this however *Gallery Sound* turns its attention to the ways in which the acoustic characteristics specific to gallery spaces have been mined by artists for creative outputs ushering in entirely new art forms

Meter as Rhythm Christopher Francis Hasty, 1997 Part II systematically develops a fully temporal theory of meter that engages a variety of interpretive possibilities open to the performer Here analyses of music from the early 17th century to the mid 20th century demonstrate the explanatory power of the theory and address broader issues of musical rhythm The concluding chapters open the theory to more general questions of musical experience and its theoretical representation

On Self-Translation Ilan Stavans, 2018-09-10 Finalist for the 2018 Foreword INDIES Book of the Year Awards in the Essay

category From award winning internationally known scholar and translator Ilan Stavans comes *On Self Translation* a collection of essays and conversations on language in its multifaceted forms Stavans discusses the way syntax is being restructured by texting and other technologies He examines how the alphabet itself is being forgotten by the young how finger snapping has taken on a new meaning how the use of ellipses has lapsed and how autocorrect is shaping the way we communicate In an incisive meditation he shows how translating one's own work reinvents oneself in another tongue The volume includes t t e t t es with Pulitzer Prize winner Richard Wilbur and short fiction master Lydia Davis as well as dialogues on silence multilingualism poetry and the durability of the classics Stavans's explorations cover Spanish English Hebrew Yiddish and the hybrid lexicon of Spanglish He muses on the meaning of foreignness and on living and dying in different languages Among his primary concerns are the role and history of dictionaries and the extent to which the authority of language academies is less a reality than a delusion He concludes with renditions into Spanglish of portions of Hamlet Don Quixote and The Little Prince The wide range of themes and engaging yet informed style confirm Stavans's status in the words of the Washington Post as Latin America's liveliest and boldest critic and most innovative cultural enthusiast This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7137>

You Owe it to Yourself Atara Malach,1999 Here is a down to earth no nonsense guide to creating a more meaningful marriage This volume combines profound insight into human relationships together with practical wisdom resulting in a powerful set of tools that can enhance the lives of both newlyweds and longer married couples

A Vocabulary; Or, Collection of Words and Phrases John Pickering,1816

Humans, Beasts, and Ghosts Zhongshu Qian,2010-11-22 This book brings together the essay collection *Written in the margins of life* Xie zai ren sheng bian shang and the short story collection *Human beast ghost* Ren shou gui

Places of the Soul Christopher Day,2004 Revised to incorporate the changes in opinions and attitudes since its first publication this text reminds us that true sustainable design does not simply mean energy efficient building In Day's view sustainable buildings must provide for the soul

Configurations Octavio Paz,1971 Octavio Paz the 1990 Nobel Laureate has won distinction as an anthropologist philosopher and critic of art and literature But it is as a poet that he is most celebrated *Configurations* was his first major collection to be published in this country and includes in their entirety *Sun Stone* 1957 and *Blanco* 1967 Paz himself translated many of the poems from the Spanish Some distinguished contributors to this bilingual edition include among others Paul Blackburn Lysander Kemp Denise Levertov and Muriel Rukeyser

On Diseases of the Chest, Including Diseases of the Heart and Great Vessels: Their Pathology, Physical Diagnosis, Symptoms, and Treatment Henry William Fuller (M.D.),1862

Starborn Code Dan Bune,2025-08-26 *Starborn Code* Season 5 Traveling with the Masters invites

readers into the next great initiation of the Avatars Having reclaimed the Song of Creation in Season 4 the team now journeys beyond words themselves into silence telepathy and the unspoken resonance of Source Guided by Jesus Buddha St Germain and the Ascended Masters they learn to unmask ego align sovereign will awaken empathy as the purest telepathy and unlock the cosmic language of light Each chapter unfolds as a mystical adventure where thought becomes creation silence becomes spell and love becomes the first tongue of the soul But the Shadow lingers weaving counterfeit thought forms and distortions of truth to block humanity's path into Matrix 5.0 Season 5 is a bridge between the spoken and the infinite an odyssey of direct knowing galactic remembrance and pure resonance For seekers of spiritual fiction visionary sci fi and cosmic myth this book is both story and initiation Tagline Before the word there was Knowing Before the voice there was Truth

People in the Presence of God Barry Liesch, 1988 Dr Liesch highlights the various models of Christian worship This one of a kind book for many kinds of readers in all kinds of churches presents the various biblical models and offers a wealth of suggestions He takes up some of the major concerns such as the role of music uses of symbolism the appropriateness of dance modes of celebration expressions of reverence and many others Lightning Print On Demand Title

Speaking of Silence in Heidegger Wanda Torres Gregory, 2021-10-06 In *Speaking of Silence in Heidegger* Wanda Torres Gregory critically analyzes Heidegger's thoughts on silence Arguing that silence about silence is a guiding principle in his sparse and often reticent words Torres Gregory sets out to decipher their elusive meanings Charting the trajectory of Heidegger's reflections from *Being and Time* to *On the Way to Language* she shows that he develops his ideas of silence in increasingly closer relations to his also evolving ideas of truth as the unconcealedness of being being and language as disclosive sonorous saying Torres Gregory distinguishes between human primordial and primeval forms of silence and the linguistic pre linguistic and proto linguistic levels at which silence can occur in relation to sonorous speech While the book focuses on these inner conceptual dynamics the author remains mindful of Heidegger's ties to National Socialism and clarifies how his theoretical assumptions allow for oppressive silencing The book concludes with critical reflections on the later Heidegger's thinking of silence and proposes alternatives to his claims concerning the sound beyond sounds the metaphysics of mystical silence the uniquely linguistic essence of the mortals and the loud idle talk in the age of modern technology

Sound Not Silence Book Review: Unveiling the Power of Words

In some sort of driven by information and connectivity, the energy of words has become more evident than ever. They have the ability to inspire, provoke, and ignite change.
