Dru Johnson

Sugar Pill:

Murder with a Past Ellery Queen, 2015-09-22 David Tully hunts for a burglar's killer in order to save his wife. It's been 3 days since David Tully has seen his wife and there's a homicide cop waiting at his front door. Someone has been murdered but it's not Ruth Tully. The dead man is Crandall Cox. The name is unfamiliar but he was killed with Tully's gun. At the time of the murder Tully was hard at work at the state capital. His alibi may be airtight but his wife's is not. There's a warrant out for Ruth's arrest and if the cops find her before Tully can uncover the truth she'll get the chair. Nobody is sorry to see Crandall Cox dead. He was a crook with dirt on every man in town and an eye on every woman. Finding his killer will drag Tully into the mud but he'll brave anything to keep his beloved alive.

Human Rites Dru Johnson, 2019-02-21 What are we doing when we gather around the sacraments or when we make the same breakfast every morning? Embodying rituals says Dru Johnson. And until we understand what we're doing and why we won't know how these rituals work, what they mean or how we might adapt them. In *Human Rites* Johnson considers the concept of ritual as seen in Scripture and its role in shaping our thinking. He colorfully illustrates both the mundane and the sacred rituals that penetrate all of life, offering not only a helpful introduction to rituals but also a framework for understanding them. As he unpacks how rituals pervade every area of our lives, Johnson suggests biblical ways to focus our use of rituals, habits, and sacraments so that we can see the world more truly through them.

Magic Or Medicine? Robert Buckman, 1995-05 a fascinating, informative, complete and objective picture including descriptions, history, comparisons, and case studies about traditional and complementary medicine. Highly recommended for health professionals, faculty, and students at all levels. Choice. Modern medicine is one of the most successful branches of science with a distinguished history of conquering many of the twentieth century's deadliest diseases. Yet today people are turning in record numbers to alternative therapies that have little or no scientific basis. What accounts for this flight from reason in the face of hard evidence that medical doctors do a better job of treating disease and alleviating suffering than their alternative counterparts? In *Magic or Medicine* Dr. Robert Buckman and Karl Sabbagh offer a response to this question by critically evaluating both alternative and conventional medical approaches to patient care. The authors argue that healing has always been partly the science of clinical treatment, medicine, and partly an art, magic. Medicine may make the patient get well, but often it is magic that makes the patient feel well. With all the pressures under which they work, modern medical doctors often neglect the magic in their dealings with patients. Alternative therapists, however, frequently offer nothing but magic. Buckman and Sabbagh look closely at the claims made for both medical science and alternative treatments and discover a gap between the promises and the reality of each approach. *Magic or Medicine* is vital reading for anyone concerned about the effective delivery of healthcare. Robert Buckman, Ph.D., FRCP, is a cancer specialist and assistant professor at the Toronto Bayview Regional Cancer Centre at Sunnybrook Hospital, University of Toronto. He is also the current president of the Humanist Association of Canada. Among his previous books are *How to Break Bad News* and *I Don't*
