Summer Of Deliverance A Memoir Of Father And Son:

Summer of Deliverance Christopher Dickey, 2010-10-12 Summer of Deliverance is a powerful and moving memoir of anger love and reconciliation between a son and his father Hailed as a literary genius of his generation James Dickey created his art and lived his life with a ferocious passion He was a heavy drinker a destructive husband and father a poet of grace and sensitivity and after the publication and subsequent film of his novel Deliverance a wildly popular literary star Drawing on letters notebooks diaries and his explicit conversations with his father Christopher Dickey has crafted a superb memoir of the corrosive effects of fame a moving remembrance of a crisis that united a family and an inspiring celebration of love between father and son

Love, Daddy David Rae Morris, Willie Morris, 2022-04-29 Winner of the 2023 Mississippi Institute of Arts and Letter Award for Photography Love Daddy Letters from My Father examines the complexities of father and son relationships through letters and photographs Willie Morris wrote scores of letters to his only son David Rae Morris from the mid 1970s until Willie s death in 1999 From David Rae s perspective his father was often emotionally disconnected and lived a peculiar lifestyle often staying out carousing well into the night But Willie was an eloquent and accomplished writer and began to write his son long loving and supportive letters when David Rae was still in high school An aspiring photographer David Rae was confused and befuddled by his father s warring personalities and began photographing Willie using the camera as a buffer to protect him and his emotions The collection begins in early 1976 and continues for more than twenty years as David Rae moved about the country living in New York Massachusetts Texas Mississippi Tennessee and Minnesota before finally settling in Louisiana All the while my father was writing to me I somehow managed to save his letters David Rae writes I left them in storage and in boxes and in piles of clutter on desks and in basements They were kind offering a love that he found difficult to express openly and directly He simply was more comfortable communicating through letters The letters cover topics ranging from writing the weather Willie s return to Mississippi in 1980 the Ole Miss football season and local town gossip to the fleas on the dog to just life and how it s lived Likewise the photographs are portraits documentary images of daily life dinners outings and private moments Together they narrate and illuminate the complexities of one family relationship and how for better or worse that love endures the passage of time

Religion and Film S. Brent Plate, 2017-09-05 Religion and cinema share a capacity for world making ritualizing mythologizing and creating sacred time and space Through cinematography mise en sc ne editing and other production activities film takes the world out there and refashions it Religion achieves similar ends by setting apart particular objects and periods of time telling stories and gathering people together for communal actions and concentrated focus The result of both cinema and religious practice is a re created world a world of fantasy a world of ideology a world we long to live in or a world we wish to avoid at all costs Religion and Film introduces readers to both religious studies and film studies by focusing on the formal similarities between cinema and religious practices and on the ways they each re create the world Explorations of film show how the cinematic experience relies on similar aesthetic devices on which religious rituals have long relied sight sound the taste of food the body and communal experience Meanwhile a deeper understanding of the aesthetic nature of religious rituals can alter our understanding of film production Utilizing terminology and theoretical insights from the study of religion as well as the study of film Religion and Film shows that by paying attention to the ways films are constructed we can shed new light on the ways religious myths and rituals are constructed and vice versa This thoroughly revised and expanded new edition is designed to appeal to the needs of courses in religion as well as film departments In addition to two new chapters this edition has been restructured into three distinct sections that offer students and instructors theories and methods for thinking about cinema in ways that more fully connect film studies with religious studies

A Curriculum of Imagination in an Era of Standardization Robert Lake, 2013-03-01 A Curriculum of Imagination in an Era of Standardization In A Curriculum of Imagination in an Era of Standardization An Imaginative Dialogue with Maxine Greene and Paulo Freire a volume in Landscapes of Education Series Editors William H Schubert University of Illinois at Chicago Ming Fang He Georgia Southern

University Robert Lake explores with the reader what is meant by imagination in the work of Maxine Greene and Paulo Freire and their relevance in an era of increasingly standardized and highly scripted practices in the field of education. The author explores how imagination permeates every aspect of life with the intent to develop capacity with the readers to look beyond the taken for granted to question the normal to develop various ways of knowing seeing feeling and to imagine and act upon possibilities for positive social and educational change. The principal aspect of the work illustrated in this book that distinguishes it from other work is that an imaginary dialogue between Maxine Greene and Paulo Freire runs through the book using actual citations from their work. Each chapter starts with such a dialogue interspersed with the works of others and the author's critical autobiographical reflections. With a brief overview of the socio cultural evolution of imagination from pre literate times to the present the author explores some of the current iterations of imagination including the eugenics movement and dark imagination sensing gaps and creative critical imagination metaphors as the language of imagination and empathy as social imagination. Reflecting upon emerging tensions challenges and possibilities curriculum workers face in such an era of standardization the author calls for a curriculum of imagination. After providing a brief overview of the socio cultural evolution of imagination from pre literate times to the present the author looks at some of the current iterations of imagination including the eugenics movement and dark imagination sensing gaps and creative critical imagination metaphors as the language of the imagination and empathy as social imagination. All of these ideas are then incorporated in a curriculum of imagination that is envisioned through Joseph Schwab's four commonplaces of curriculum followed by a discussion of emerging tensions issues and possibilities for praxis and scholarship in present and future inquiry.
