**Sun and Cross** Jakob Streit,1984      **Sun and Cross** Jakob Streit,2004 Starting with the ancient sun oriented monuments of the megalithic age Streit traces an unbroken spiritual culture in Ireland through the Celtic era into the period of the early Christian stone crosses      Spirit and Art Van James,2002 Stumbling through life gazing at the stars we can miss the greatest treasure beneath our feet For the ordinary faculties of our soul how we think how we feel how we act are the rough and fallen forms of our highest spiritual capacities This book shows how six of these common abilities thinking feeling doing loving opening thanking can be intensified infinitely We already think we can learn to think more deeply more livingly We already feel we can learn to train our feeling life away from ourselves so that we feel the world in its richness We already thank we can learn a depth of gratitude that makes life and love intensely real These exercises are simple but demanding By strengthening our capacity to pay attention they allow us to say the right word and have the fresh thought just when we need to They gradually lead us out of the mire of distraction and confusion and allow us to practice what we need most continual presence of mind      **Christianity and Culture** Martin S. Reed,2002 In over 2 000 years Christianity has made the overwhelming impact on the culture of the Western world in particular But culture has also helped to shape the development and form of Christianity since the interaction of two such powerful phenomena cannot help but change the other This new book brings together over 1200 citations on Christianity and Culture which are indexed by subject title and author for easy access      **The Globalization of God** Dara Molloy,2015-11-10 Roman Catholicism was the first multinational corporation Preaching was the forerunner of advertising Roman Catholicism created the template for the spread of commercial globalisation through multinational corporations For global Christianity to succeed all local expressions of Christianity had to be suppressed These included Celtic Christianity For 800 years the Roman church tried to break the independent spirit of Celtic Christianity Despite being defeated in 1014 at the Battle of Clontarf the Irish Vikings through their urban bishops were key actors in the imposition of Roman episcopal structures of church throughout Ireland in the 12th century There was an invasion of Norman monks to Ireland which began in 1142 twenty five years before the military invasion in 1167 The ecclesiastical colonisation of Ireland meant that a Roman episcopal and diocesan structure replaced the Celtic monastic structure Norman colonisers destroyed Celtic monasteries and replaced them with imported European religious orders Cistercian monasteries in Ireland were required to have French abbots and sometimes these were imposed by force no Irishman was allowed to become a bishop or attain any ecclesiastical high office St Malachy of Armagh betrayed his own Celtic heritage and was a key figure in bringing about the ecclesiastical colonisation of Ireland Monotheism is the mythical container for globalization Humans will fail to return to a sustainable way of living on this planet until the mythological container of monotheism is replaced by new bioregional spiritualities that go beyond both monotheism and polytheism
