Sun In Horus:

Yahweh and the Sun J. Glen Taylor, 1993-11-01 This challenging provocative book argues that there was in ancient Israel a considerable degree of overlap between the worship of the sun and of Yahweh even that Yahweh was worshipped as the sun in some contexts As an object created not by humankind but by God himself the sun as an object of veneration lay outside the bounds of the second commandment and was considered by many to be an appropriate icon of Yahweh of Hosts Through its investigation of solar Yahwism this book offers fresh insight into several passages e g Genesis 1 32 23 33 Joshua 10 12 14 1 Kings 8 12 Ezekiel 8 16 18 Psalms 19 104 and archaeological data regarding the orientations of Yahwistic temples the lmlk jar handles horse figurines and the Taanach cult stand The book argues that the struggle between Yahweh and other deities in ancient Israel took place within the context of the development of Yahwism itself *Sun Moon* Olivia

Thompson, AI, 2025-03-06 *Sun Moon* explores the pervasive influence of the sun and moon on global spirituality and religious traditions By examining their symbolic meanings across cultures the book reveals how these celestial bodies have shaped creation myths rituals and belief systems One intriguing aspect is the astronomical alignment of religious sites reflecting ancient civilizations deep connection to the cosmos The book emphasizes that the sun and moon symbolize fundamental human experiences like life and death offering a lens for understanding diverse religious expressions The book unfolds in three sections beginning with the astronomical properties of the sun and moon and their earliest cultural representations It then examines their roles in various religious traditions including indigenous religions Hinduism Christianity and Islam drawing from scriptures myths and historical research Finally the book synthesizes these findings presenting a comparative analysis of solar and lunar symbolism and their relevance in contemporary spirituality This approach provides readers with a comprehensive understanding of religious symbolism and cultural history *The Midnight Sun* Alan F. Alford, 2004

Thoth, the Hermes of Egypt Patrick Boylan, 1922 *The Worship of Nature* James George Frazer, 1926 *The Worship of Nature: The worship of the earth, the sky, and the sun* James George Frazer, 1926 **The Westminster Review**, 1898
