per hour All of this is happening as the sun in turn is supposed to be hurtling through the Milky Way galaxy at approximately 500 000 miles per hour The Milky Way galaxy itself is alleged to be racing through space at a speed ranging from 300 000 to 1 340 000 miles per hour What most people are not told is that the purported spinning orbiting and speeding through space has never been proven In fact every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary Yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe Christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the bible that the earth is not a sphere and does not move This book reveals the evil forces behind the heliocentric deception and why scientists and the Christian churches have gone along with it **Sticks, Stones, and Shadows** Martin Isler,2001 What do the pyramids of Egypt really represent What could have driven so many to so great and often so dangerous an effort Was the motivation religious or practical Illustrated with more than 300 photographs and drawings this book presents an original approach to the subject of pyramid building It reveals the connection between devices that served both a practical need for survival and a spiritual belief in gods and goddesses It examines Egyptian technologies and techniques from the origins of pyramid development to the step by step details of how the ground was leveled how the site was oriented and how the stone was raised and placed to meet at a distant point in the sky Here the author also asks and answers questions virtually ignored for the last century He discloses for example the ancient use of shadows now denigrated to the ornamental back yard sundial but once an important tool for telling the height of an object geographical directions the seasons of the year and the time of day He also reinterprets the ancient stretching of the cord ceremony which once was thought to have only religious significance but here is shown as the means of establishing the sides of a pyramid Understanding Primary Science Roy Phipps,2000-07-01 Many primary teachers need help with their personal subject knowledge in science Now that there is a nationally published scheme of work for science in primary schools many teachers also need help in constructing lesson plans in order to cover all of the themes and possible activities in the scheme Designed with those needs in mind this book provides practical help in the form of sample lesson plans together with linked background subject knowledge for each of the science topics in the primary national curriculum Each chapter has sample lesson plans for four different age groups reception years 1 2 years 3 4 and years 5 6
