Sharon Paice MacLeod,2013-12-23 This book is an exploration of the spiritual traditions of ancient Europe focusing on the numinous presence of the divine feminine in Russia Central Europe France Britain Ireland and the northern regions Drawing upon research in archaeology history sociology anthropology and the study of religions to connect the reader with the myths and symbols of the European traditions the book shows how the power of European goddesses and holy women evolved through the ages adapting to climate change and social upheaval but continually reflecting the importance of living in an harmonious relationship with the environment and the spirit world From the cave painting of southern France to ancient Irish tombs from shamanic rituals to Arthurian legends the divine feminine plays an essential role in understanding where we have come from and where we are going Comparative examples from other native cultures and quotes from spiritual leaders around the world set European religions in context with other indigenous cultures **The Handbook of Religions in**

Ancient Europe Lisbeth Bredholt Christensen,Olav Hammer,David Warburton,2014-09-11 The Handbook of Religions in Ancient Europe surveys the major religious currents of Europe before Christianity the first continental religion with hegemonic ambition wiped out most local religions The evidence whether archaeological or written is notoriously difficult to interpret and the variety of religions documented by the sources and the range of languages used are bewildering The Handbook brings together leading authorities on pre Christian religious history to provide a state of the art survey The first section of the book covers the Prehistoric period from the Paleolithic to the Bronze Age The second section covers the period since writing systems began Ranging across the Mediterranean and Northern Celtic and Slavic Europe the essays assess the archaeological and textual evidence Dispersed archaeological remains and biased outside sources constitute our main

sources of information so the complex task of interpreting these traces is explained for each case The Handbook also aims to highlight the plurality of religion in ancient Europe the many ways in which it is expressed notably in discourse action organization and material culture how it is produced and maintained by different people with different interests how communities always connect with or disassociate from adjunct communities and how their beliefs and rituals are shaped by these relationships The Handbook will be invaluable to anyone interested in ancient History and also to scholars and students of Religion Anthropology Archaeology and Classical Studies Bogowie: A Study of Eastern Europe's Ancient Gods T.D.

Kokoszka,2023-08-25 T D Kokoszka grew up in Texas with a Jewish mother and a Polish American father While he was aware of roots going back to Eastern Europe from both families he found it hard to learn very much about them He knew that Polish people would whack one another with palm leaves around Easter and he knew that his great grandmother purportedly believed in forest spirits known as borowy However it wasn't until he was in his teens that he became vaguely aware of an ancient people known as the Slavs who gave rise to the Polish Ukrainian Russian Serbian Bulgarian Slovakian Slovene and Czech languages It quickly became clear to him that this was a family of cultures currently under represented in popular culture and even in western scholarship Not simply a regurgitation of scholarship from the Soviet period and presenting new analyses by using previously neglected resources Bogowie A Study of Eastern Europe's Ancient Gods offers one of the most painstaking scholarly reconstructions of Slavic paganism These new resources include not only an overview of folklore from many different Slavic countries but also comparisons with Ossetian culture and Mordvin culture as well as a series of Slavic folktales that Kokoszka analyzes in depth often making the case that the narratives involved are mythological and shockingly ancient Readers will recognize many European folktale types and possibly learn to look at these folktales differently after reading this book **Martian Metamorphoses** Ev Cochrane,1997 **Magic and Magicians in the Middle Ages and the Early Modern Time** Albrecht Classen,2017-10-23

There are no clear demarcation lines between magic astrology necromancy medicine and even sciences in the pre modern world Under the umbrella term magic the contributors to this volume examine a wide range of texts both literary and religious both medical and philosophical in which the topic is discussed from many different perspectives The fundamental concerns address issue such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large **Fossil Gods and Forgotten Worlds** Ev Cochrane ,2017-09-13 Fossil Gods offers a comparative analysis of some of the greatest gods of antiquity including Inanna

Horus and Thor The basic thesis holds that many mythological traditions surrounding these gods can only be understood by reference to extraordinary planetary events

Indo-European Poetry and Myth M. L. West, 2008-11-13 The Indo Europeans speakers of the prehistoric parent language from which most European and some Asiatic languages are descended most probably lived on the Eurasian steppes some five or six thousand years ago Martin West investigates their traditional mythologies religions and poetries and points to elements of common heritage In *The East Face of Helicon* 1997 West showed the extent to which Homeric and other early Greek poetry was influenced by Near Eastern traditions mainly non Indo European His new book presents a foil to that work by identifying elements of more ancient Indo European heritage in the Greek material Topics covered include the status of poets and poetry in Indo European societies metre style and diction gods and other supernatural beings from Father Sky and Mother Earth to the Sun god and his beautiful daughter the Thunder god and other elemental deities and earthly orders such as Nymphs and Elves the forms of hymns prayers and incantations conceptions about the world its origin mankind death and fate the ideology of fame and of immortalization through poetry the typology of the king and the hero the hero as warrior and the conventions of battle narrative

Boudica Britannia Miranda Aldhouse-Green, 2014-05-01 When Roman troops threatened to seize the wealth of the Iceni people their queen Boudica retaliated by inciting a major uprising allying her tribe with the neighbouring Trinovantes The ensuing clash is one of the most important and dramatic events in the history of Britain standing testament to what can happen when an insensitive colonial power meets determined resistance from a subjugated people head on In this fascinating account of a legendary figure Miranda Aldhouse Green raises questions about female power colonial oppression and whether Boudica would be seen today as a freedom fighter terrorist or martyr
