Sunshines Visions:

Vision ,1890 The Glory of the Vision, Vol. I Richard Schaefer,2015-11-16 From humble beginnings Loma Linda University Health has grown to become a major health care and educational center impacting people around the world Back in 1905 pioneer Seventh day Adventist Ellen G White insisted that such an institution be established somewhere in Southern California near Redlands and Riverside She also predicted properties would become available that were far below their initial price Fellow Adventist pioneer John Burden found a property that had failed in two previous business ventures first as a hotel then as a sanitarium The asking price was already well below the property s value and the buildings were already fully furnished and stocked Make an offer White told him With his own money as down payment Burden set in motion what has become a network of multiple hospitals and professional schools Miracle upon miracle was needed to keep the fledgling organization afloat Be inspired by the way the hand of Providence has and continues to work on behalf of Loma Linda

Night Vision Mariana Alessandri,2023-05-09 A philosopher s personal meditation on how painful emotions can reveal truths about what it means to be truly human Under the light of ancient Western philosophies our darker moods like grief anguish and depression can seem irrational When viewed through the lens of modern psychology they can even look like mental disorders The self help industry determined to sell us the promise of a brighter future can sometimes leave us feeling ashamed that we are not more grateful happy or optimistic Night Vision invites us to consider a different approach to life one in which we stop feeling bad about feeling bad In this powerful and disarmingly intimate book Existentialist philosopher Mariana Alessandri draws on the stories of a diverse group of nineteenth and twentieth century philosophers and writers to help us see that our suffering is a sign not that we are broken but that we are tender perceptive and intelligent Thinkers such as Audre Lorde Mar a Lugones Miguel de Unamuno C S Lewis Gloria Anzald a and S ren Kierkegaard sat in their anger sadness and anxiety until their eyes adjusted to the dark Alessandri explains how readers can cultivate night vision and discover new sides to their painful moods such as wit and humor closeness and warmth and connection and clarity Night Vision shows how when we learn to embrace the dark we begin to see these moods and ourselves as honorable dignified and unmistakably human Love's Vision Troy Jollimore,2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In Love s Vision Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love s moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato s Symposium love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view

recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason. Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable. Filled with illuminating examples from literature, *Love's Vision* is an original examination of a subject of vital philosophical and human concern.

Chasing the Sun Richard Cohen, 2011-08-04 The Sun is so powerful so much bigger than us that it is a terrifying subject. Yet though we depend on it we take it for granted. Amazingly the first book of its kind, CHASING THE SUN is a cultural and scientific history of our relationship with the star that gives us life. Richard Cohen applying the same mix of wide ranging reference and intimate detail that won outstanding reviews for *By the Sword* travels from the ancient Greek astronomers to modern day solar scientists from Stonehenge to Antarctica site of the solar eclipse of 2003 when penguins were said to sing. Mexico's Aztecs to the Norwegian city of Tromsø where for two months of the year there is no Sun at all. He introduces us to the crucial sunspot cycle in modern economics the religious dances of Indian tribesmen the histories of sundials and calendars the plight of migrating birds the latest theories of global warming and Galileo recording his discoveries in code for fear of persecution. And throughout there is the rich Sun literature from the writings of Homer through Dante and Nietzsche to Keats Shelley and beyond. Blindingly impressive and hugely readable this is a tour de force of narrative non fiction.
