Terrell Texas From Open Country To Modern City 1873 1973:

Terrell, Texas, 1873-1973 Jack Stoltz, 1973-01-01 **The Royal Air Force in Texas** Tom Killebrew, 2003 With the outbreak of World War II British RAF officials sought to train aircrews outside of England safe from enemy attack and poor weather In the USA six civilian flight schools dedicated themselves to instructing RAF pilots Tom Killebrew explores the history of the Terrell Aviation School **Chicano Scholars and Writers** Julio A. Martínez, 1979 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com **In Struggle Against Jim Crow** Merline Pitre, 2010 Most accounts of the civil rights movement focus on male leaders and the organizations they led leaving a dearth of information about the countless Black women who were the backbone of the struggle in local communities across the country Lulu B White was one of those women in the civil rights movement in Texas Executive secretary of the Houston branch of the NAACP and state director of branches White was a significant force in the struggle against Jim Crow during the 1940s and 1950s She was at the helm of the Houston chapter when the Supreme Court struck down the white primary in *Smith v Allbright* and she led the fight to get more blacks elected to public office to gain economic parity for African Americans and to integrate the University of Texas **Unprecedented Power** Steven Fenberg, 2013-12-06 In this poignant and timely biography *Unprecedented Power* Jesse Jones *Capitalism and the Common Good* shows how the Reconstruction Finance Corporation RFC saved the United States economy during the Great Depression and militarized industry in time to win World War II RFC strategies and Jesse Jones's approaches can be adapted now to address the impacts of the new coronavirus and climate change President Herbert Hoover had established the RFC in 1932 to make loans to banks railroads and insurance companies and appointed Jesse Jones Houston's preeminent developer and a former finance chair of the Democratic National Committee to the bi-partisan board With clear implications today Jones complained the RFC was slow and a year late and said if it had judiciously loaned five to seven billion dollars in 1931 and 32 economic collapse would have been prevented Soon after his inauguration President Franklin Roosevelt supercharged the RFC made Jones chair and the government agency began buying preferred stock in banks to stabilize and help them lend again Jones knew capital rather than debt was needed to save the banks and revive the flow of credit just as it was when the program was duplicated in 2008 as the Troubled Asset Relief Program better known as TARP Under Jones's leadership the RFC became the largest investor in the nation and rescued banks businesses homes and farms saved the railroads rebuilt communities after environmental calamities built bridges dams and aqueducts across the nation and brought electricity and appliances to rural America The RFC helped people and saved businesses during the Great Depression through judicious lending not spending and remarkably returned a profit to the government and its taxpayers As war spread Jones and FDR shifted the RFC's focus from domestic economics to global defense In its second cover story about Jones *TIME* magazine reported In all the U S today there is only one man whose power is greater Franklin Roosevelt The President knows Congress will give more to Jones

without debate than he can get after a fight Emperor Jones is the greatest lender of all time Accordingly after Germany's European victories Congress on June 25 1940 gave Jones and the RFC the authority to build buy and lease plants to develop and manufacture metals ships airplanes tanks and guns to train aviators and with FDR's approval to do anything required to arm the Allied Forces Almost half of its outsized investments went to corporations to help convert their production to war time needs One of its largest new plants the Dodge Chicago plant covered 145 acres and took in raw metal at one end and produced finished airplane engines at the other Like all its new factories the plant was built and owned by the federal government's RFC leased to corporations to operate and sold to private interests after the war Likewise coordinated national large scale efforts and government investments can be made to address today's daunting challenges Unprecedented Power dramatically describes how Jesse Jones and the RFC used every option to save life democracy and capitalism during two of the 20th century's most threatening events Unprecedented Power provides models for today by looking at successes from the past
