## **Terrible Threes:**

**Aggressive Fictions** Kathryn Hume, 2012-01-15 A frequent complaint against contemporary American fiction is that too often it puts off readers in ways they find difficult to fathom Books such as Bret Easton Ellis's *American Psycho* Katherine Dunn's *Geek Love* and Don DeLillo's *Underworld* seem determined to upset disgust or annoy their readers or to disorient them by shunning traditional plot patterns and character development Kathryn Hume calls such works aggressive fiction Why would authors risk alienating their readers and why should readers persevere Looking beyond the theory based justifications that critics often provide for such fiction Hume offers a commonsense guide for the average reader who wants to better understand and appreciate books that might otherwise seem difficult to enjoy In her reliable and sympathetic guide Hume considers roughly forty works of recent American fiction including books by William Burroughs Kathy Acker Chuck Palahniuk and Cormac McCarthy Hume gathers attacks on the reader into categories based on narrative structure and content Writers of some aggressive fictions may wish to frustrate easy interpretation or criticism Others may try to induce certain responses in readers Extreme content deployed as a tactic for distancing and alienating can actually produce a contradictory effect for readers who learn to relax and go with the flow the result may well be exhilaration rather than revulsion

*The Terrible Threes* Ishmael Reed, 1999-09-01 In *The Terrible Threes* Ishmael Reed proves that he is one of the most innovative voices in contemporary literature This adventure into the world of offbeat humor and on target social criticism is a vision of America in the not too distant future a portrait of a fairy tale gone awry This novel begins where *The Terrible Twos* left off in the late 1990s three years after President and former fashion model Dean Clift was laughed out of office with the nation in chaos and the White House implicated in a covert operation to rid America of surplus people and the Third World of its nuclear weapons A blend of science fiction folklore history fantasy social satire and all out surrealist comedy *The Terrible Threes* bears Reed's distinctive voice and message At once a threat a promise a prediction and the awful truth about the land of the free and the home of the brave the tale is wholly unforgettable Once you've seen the world through Reed's eyes you might never see it the same way again

**Hoppla! One, Two, Three** Gérard Gavarry, 2009 The tale is simple if grim a disenfranchised teenage boy from the housing projects on the outskirts of Paris rapes and murders the manager of the supermarket where his mother works But Gerard Gavarry is a writer who knows how literary inventiveness can shed new light on a serious subject and *Hoppla* tells its story three times in three separate sections each in a different tone or mode and with different sets of images and vocabularies The first relies on tropical images and the characters speak in a lexicon borrowed from the coconut industry as if the Parisian suburbs had been transported to an exotic shore the second is nautical in nature the third invokes the mythology of the centaur and ancient Greece butts up against modern day France Gavarry's bloody and poetic narrative takes dead aim at the social political and personal roots of violence and argues for the transformative power of fiction

*The Columbia Guide to Contemporary African American Fiction* Darryl Dickson-Carr, 2005-12-06 In both the literal and metaphorical senses it seemed as if 1970s America was running out of gas The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned High unemployment runaway inflation and the energy crisis caused in part by U S dependence on Arab oil characterized an increasingly bleak economic situation As Edward D Berkowitz demonstrates the end of the postwar economic boom Watergate and defeat in Vietnam led to an unraveling of the national consensus During the decade ideas about the United

States how it should be governed and how its economy should be managed changed dramatically Berkowitz argues that the postwar faith in sweeping social programs and a global U S mission was replaced by a more skeptical attitude about government s ability to positively affect society From Woody Allen to Watergate from the decline of the steel industry to the rise of Bill Gates and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers Berkowitz captures the history tone and spirit of the seventies He explores the decade s major political events and movements including the rise and fall of d tente congressional reform changes in healthcare policies and the hostage crisis in Iran The seventies also gave birth to several social movements and the rights revolution in which women gays and lesbians and people with disabilities all successfully fought for greater legal and social recognition At the same time reaction to these social movements as well as the issue of abortion introduced a new facet into American political life the rise of powerful politically conservative religious organizations and activists Berkowitz also considers important shifts in American popular culture recounting the creative renaissance in American film as well as the birth of the Hollywood blockbuster He discusses how television programs such as All in the Family and Charlie s Angels offered Americans both a reflection of and an escape from the problems gripping the country

many forms and genres and one who embraces postmodernism rather than protest and naturalism Reed defies popular conceptions of what American writers particularly black American male writers should be or do In this collection of candid interviews Reed discusses how critics especially from the northeastern establishment have consistently marginalized African American writers by placing them in the either/or thing of Christianity and Communism As he does in his writing Reed uses invective satire and humor to show how those people judging American literature have made no attempt to understand recent American writing Bruce Dick is a professor English and African American studies at Appalachian State University Amritjit Singh is a professor of English at Rhode Island College and co editor of *Postcolonial Theory and the United States* published by University Press of Mississippi in 2000
