*Queer Terror* C. Heike Schotten, 2018-08-21 After Sept 11 2001 George W Bush declared Either you are with us or you are with the terrorists Bush's assertion was not simply jingoist bravado it encapsulates the civilizationalist moralism that has motivated and defined the United States since its beginning linking the War on Terror to the nation's settlement and founding In *Queer Terror* C Heike Schotten offers a critique of U S settler colonial empire that draws on political queer and critical indigenous theory to situate Bush's either/or moralism and reframe the concept of terrorism The categories of the War on Terror exemplify the moralizing politics that insulate U S empire from critique render its victims deserving of its abuses and delegitimize resistance to it as unthinkable and perverse Schotten provides an anatomy of this moralism arguing for a new interpretation of biopolitics that is focused on sovereignty and desire rather than racism and biology This rethinking of biopolitics puts critical political theory of empire in dialogue with the insights of both native studies and queer theory Building on queer theory's refusal of sanctity propriety and moralisms of all sorts Schotten ultimately contends that the answer to Bush's ultimatum is clear dissidents must reject the false choice he presents and stand decisively against us rejecting its moralism and the sanctity of its life in order to further a truly emancipatory decolonizing queer politics **Why**

**Terrorist Groups Form International Alliances** Tricia Bacon, 2018-04-04 Terrorist groups with a shared enemy or ideology have ample reason to work together even if they are primarily pursuing different causes Although partnering with another terrorist organization has the potential to bolster operational effectiveness efficiency and prestige international alliances may expose partners to infiltration security breaches or additional counterterrorism attention Alliances between such organizations which are suspicious and secretive by nature must also overcome significant barriers to trust the exposure to risk must be balanced by the promise of increased lethality resiliency and longevity In *Why Terrorist Groups Form International Alliances* Tricia Bacon argues that although it may seem natural for terrorist groups to ally groups actually face substantial hurdles when attempting to ally and when alliances do form they are not evenly distributed across pairs Instead she demonstrates that when terrorist groups seek allies to obtain new skills knowledge or capacities for resource acquisition and mobilization only a few groups have the ability to provide needed training safe haven infrastructure or cachet Consequently these select few emerge as preferable partners and become hubs around which other groups cluster According to Bacon shared enemies and common ideologies do not cause alliances to form but create affinity to bind partners and guide partner selection Bacon examines partnerships formed by the Popular Front for the Liberation of Palestine Al Qaida and Egyptian jihadist groups among others in a series of case studies spanning the dawn of international terrorism in the 1960s to the present *Why Terrorist Groups Form International Alliances* advances our understanding of the motivations of terrorist alliances and offers insights useful to counterterrorism efforts to disrupt these dangerous relationships **The**

**Counterterror Coalitions** Nora Bensahel, 2003-10-09 The long term success of the counterterror campaign will depend on

concerted cooperation from European states but a key question is the extent to which that cooperation should be pursued through European multilateral institutions This study argues that the United States should pursue military and intelligence cooperation on a bilateral basis and it should increasingly pursue financial and law enforcement cooperation on a multilateral basis The United States should adopt a nuanced strategy in its counterterror relations with Europe *Crime-terror Alliances and the State* Lyubov Grigorova, Ted Robert Gurr, 2013 This new book by Lyubov Mincheva and Ted Gurr examines the political economy of transborder violence on the European Periphery that poses grave threats to domestic and international security in Europe and elsewhere The units of analysis are unholy alliances i e hybrid transborder militant and criminal networks which have been active in the 1990s and the first decade of the 2000s The concept of Unholy Alliances is extended to also include the trans state criminal syndicates that arise in failed and dysfunctional states or operate within the global illicit economy It also addresses the question of what reigns supreme in securing the militants long term success money or social endowment including strong identity networks **Countdown to Terror** Curt Weldon, 2013-02-05 Congressman Curt Weldon provides a rare indeed unique insight on what is going on in the war on terrorism through his Ali missives The book is a case study of an intelligence failure in the process of happening with potentially catastrophic consequences for the United States Moreover Curt accurately diagnoses the larger problems in the intelligence community that can result in intelligence failures He offers a blueprint for solving these problems and for winning the war on terrorism that deserves a wide hearing R James Woolsey former director of Central Intelligence **Global Organized Crime** Dina Siegel, H. Bunt, D. Zaitch, 2012-12-06 In the current processes of political economic and cultural changes serious cross border forms of organized crime receive unprecedented attention as spectacular global media events as threats of all sorts and as priority targets of criminal policy and political agendas Most books on global organized crime focus on one particular region topic or event and are written from one specific theoretical and disciplinary framework The renowned scholars who have contributed to this volume present up to date expertise on regions as distant and different as Russia Colombia the Netherlands Israel Peru and Britain They tackle phenomena such as international drug trafficking alien and women smuggling terrorism East European organized crime and financial crimes They show not only how these issues are interrelated but also the way in which they interact with social economic and political legitimate structures The contributors critically question the policies and strategies currently pursued They explore different theoretical arguments from the perspective of their own disciplines which include economics criminology political science and anthropology *Living Alliances, Leaving Alliances* Franck Orban, 2022-01-20 Throughout history alliances have taken many different forms and they have been difficult to understand in their totality As we now experience an unprecedented pandemic which highlights the need for both external alliances between states and internal alliances between governments and populations understanding alliances is more than ever critical to apprehend an open and interactive world that knows no borders and in which challenges imposed on humans are

global The book *Living Alliances Leaving Alliances* is an interdisciplinary approach to investigating past present and future alliances on an interpersonal subnational international and transnational level It is the result of a two year project by AreaS a research group in area studies located at the stfold University College in Norway

*Multilateral Counter-Terrorism* Peter Romaniuk,2010-04-05 Contemporary terrorism is a global phenomenon requiring a globalized response In this book Peter Romaniuk aims to assess to what extent states seek multilateral responses to the threats they face from terrorists Providing a concise history and a clear discussion of current patterns of counter terrorist co operation this book analyses a wide spectrum of institutions from the United Nations and its various bodies to military intelligence and law enforcement agencies explains the full range of cooperative counter terrorist activities and the patterns across them from the use of intelligence and military force to criminal law measures financial controls and diplomacy examines under what conditions states cooperate to suppress terrorism evaluates how existing international institutions been affected by the US led global war on terror launched after the 9 11 terrorist attacks The book contests that the whilst there are several notable examples of successful counterterrorism cooperation past and present this work suggests that the broader trend can only be understood if we accept that across the domains of counter terrorism policy cooperation often resembles a competition for influence over outcomes Multilateral Counter terrorism is an essential resource for all students and scholars of international politics criminology and terrorism studies
