Neumann, 2016-09-30 The attacks in Paris in January and November 2015 heralded the beginning of a new wave of terrorism one rooted in the ongoing conflict in Syria and Iraq As ISIS seeks to expand its reach in the Middle East its territory serves as a base for training and operations for a new generation of jihadis Thousands of young people from the West primarily from Europe have travelled to join ISIS re emerging as hardened fighters with military training and a network of international contacts Many of these have now returned to their homelands where it is feared they are planning a new series of brutal attacks Peter R Neumann here explains the phenomenon of the new jihadis and shows why the threat of terrorism in the West is greater than ever before

Based on interviews and previously unseen material Neumann provides an essential introduction to one of the greatest crises of our time Handbook of the Sociology of Death, Grief, and Bereavement Neil Thompson, Gerry R. Cox, 2017-04-28 The Handbook of the Sociology of Death Grief and Bereavement sets issues of death and dying in a broad and holistic social context Its three parts explore classical sociology developments in sociological thought and the ways that sociological insights can be useful across a broad spectrum of grief related topics and concerns Guidance is given in each chapter to help spur readers to examine other topics in thanatology through a sociological lens Scholars students and professionals will come away from the handbook with a nuanced understanding of the social context cultural differences power relations the role of social processes and institutions and various other sociological factors that shape grief experiences Political Violence in Twentieth-Century Europe Donald Bloxham, Robert Gerwarth, 2011-03-10 This is a comprehensive history of political violence during Europe's incredibly violent twentieth century Leading scholars examine the causes and dynamics of war revolution counterrevolution genocide ethnic cleansing terrorism and state repression They locate these manifestations of political violence within their full transnational and comparative contexts and within broader trends in European history from the beginning of the dissolution of the Ottoman Empire in the late nineteenth century through the two world wars to the Yugoslav Wars and the rise of fundamentalist terrorism The book spans a greater Europe stretching from Ireland and Iberia to the Baltic the Caucasus Turkey and the southern shores of the Mediterranean It sheds new light on the extent to which political violence in twentieth century Europe was inseparable from the generation of new forms of state power and their projection into other societies be they distant territories of imperial conquest or ones much closer to home
