STIR Mindy Caliguire,2013-09-24 In the past church leaders have turned to small groups or other kinds of discipleship programs to encourage spiritual growth in their churches Yet despite good intentions the deeper spiritual life and transformation they had hoped for remained elusive STIR calls church leaders to reclaim an essential biblical truth that the process of spiritual growth is more than a one size fits all program it happens best through intentional relationships with

others in the body of Christ Three distinct sequential stages of spiritual development typically occur as people mature in their spiritual walk with Christ and they need different kinds of relationships to support their growth through those different seasons STIR describes those stages learning together journeying together and following together and shows how progress into and through these stages is best made in the context of relationships that change in nature over time Readers will learn how to intentionally establish and strengthen the unique kinds of relationships that are catalytic for growth at each stage of their journey Church leaders will come away with a new paradigm for encouraging spiritual formation in their local church by providing appropriate encouragement and support to people at all stages of growth
