Cavallo, 2024-05-31 The Flying Life is the life story of our father Stefan Cavallo a test pilot at Langley Field during World War II who passed away peacefully on September 25 2022 at 101 While attending the School of Aeronautical Engineering at New York University he also took flying lessons at Teterboro Airfield in New Jersey through a government sponsored program and graduated with a combination aeronautical engineering degree and pilot s license in April 1942 just five months after Pearl Harbor He was immediately picked up by NACA a precursor of NASA and became one of their civilian test pilots one of only five men He had a remarkable seventy five year career in aviation As a NACA test pilot for six years three of them during the war he flew and tested every version of the P51 Mustang the A B D and H prototypes as well as dozens of other aircraft from rocket powered planes to amphibians and helicopters Late in the war when P51s were escorting B47 bombers over Germany we discovered that we were mysteriously losing too many of the fighter planes in thunderstorms over Europe the P51s went down while the B47s came safely home The NACA pilots were given the assignment of determining the cause of these failures most of the pilots and engineers were convinced that the plane s wings had sustained heavy damage and had even fallen off but the planes went down over enemy territory so there was no way to know for sure A test was designed to see if NACA could solve the mystery Stefan Cavallo my father was assigned to fly a P51 deliberately into a thunderstorm with the task of finding out what was causing the crash And find out he did losing his burning plane in the process and bailing out over rural Virginia Surprisingly it wasn t the wings that were the problem it was

the engine which caught fire almost immediately in the windstorm After he left NACA Stefan Cavallo continued test flying for about five years with EDO a seaplane manufacturing company and then retired from commercial aviation In June 2010 while flying his Cessna 210 his engine seized five miles off the Long Island coastline He was able at the age of eighty nine to make a dead stick landing in between a heavily populated beach and a full parking lot in a very small patch of sand There were no injuries to him or anyone else He made that night s six o clock news Our father loved to fly His book is a love letter to aeronautics and a great read **Flight** ,1929 **Naval Aviation News** ,1992 Who's who of NASA Astronauts Lee Ellis,2004 Who s Who of NASA Astronauts presents the biographical information of all 367 NASA astronauts along with their mission facts From the original Mercury 7 selected in 1959 to the present day Space Shuttle astronauts working on the International Space Station this book contains the personal history education honors received affiliated organizations and the NASA experience of each astronaut Flying Magazine ,1960-06 *Popular Mechanics* ,1955-11 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle Flying Magazine ,1980-02 *Flying Magazine* ,1980-10 Test Pilots of the Jet Age Colin Higgs,Bruce Vigar,2021-07-21 Eleven daring test pilots recount their experiences at the forefront of aeronautical innovation in this oral history of the Jet Age In the years after World War II a select band of British test pilots risked everything in the quest to fly further faster and higher than ever before Their vital work made our modern age of air transport possible This book captures the stories of eleven such pilots as told in their own words Britain s aircraft industry was booming in the late 1940s and the demand for test pilots was seemingly limitless as new aircraft designs some legendary and others nearly forgotten were being built Royal Air Force veterans who had distinguished themselves in the war suddenly had a vital new mission First they pursued the almost mythic goal of breaking the sound barrier But once this was accomplished they found themselves approaching speeds no one imagined possible Their stories of that time are both colorful and insightful and often tinged with humor Flying Magazine ,1954-01 *Illinois Textbook Program*, 1979-1980 ,1979 **Flying Magazine** ,2002-08 Flying Magazine ,1994-02
