Tet Vietnam Ground Zero No 11:

The Vietnamese War David Elliott, 2016-04-15 A monumental work of research and analysis this is a history of the Vietnam War in a single province of the Mekong Delta over the period 1930 1975 More precisely it is a study of the Vietnamese dimension of the Vietnam War focusing on the revolutionary movement that became popularly known as the Viet Cong There are several distinctive features to this study 1 it provides an explanation for the paradox of why the revolutionary movement was so successful during the war but unable to meet the challenges of postwar developments 2 it challenges the dominant theme of contemporary political analysis which assumes that people are rational actors responding to events with careful calculations of self interest 3 it closely examines province level documentation that casts light on a number of important historical controversies about the war No other history of the Vietnam War has drawn on such a depth of documentation especially firsthand accounts that allow the Vietnamese participants to speak directly to us **Vietnam War**
